By
Charles C. Tilton, of
Vineyard Haven,
Mass.
Seaman, Boatsteerer & 4th Officer

Log of whaling bark Sunbeam.

of New Bedford, Mass.
Commanded by
George H. J. Moulton, of
South Dartmouth, Mass.

Sailed Tuesday, July 25, 1882.
Returned Friday, June 11, 1886.

Captured 98 Whales, of which
8 were Right, 32 Humpback,
and the remainder, Sperm,
making 3975 barrels Oil;
2823 barrels Sperm, 600 Right
whale, and 550 Humpback.
5-050 pounds Bone,
5 pounds Ambergris.

July, 1882.

ues. 5. Having towed down off the Fort last night, at 10 A.M. the captain, officers, pilot, visitors, and remainder of the crew came aboard. Got under weigh immediately, the anchor coming home to the loud and merry "shanty" of "Whiskey for my Johnny", "Blow, boys, blow", and "Heave her up and away we will go." There being little or no wind took the tug Nellie and towed down to Dumpling Rock, when we caught a breeze from the S.W., which made it necessary to beat out. - At 7 P.M. the pilot left us, also Uncle John and the visitors, leaving us to proceed on a four years' voyage. The crew was then tolled off into watches, the captain giving us the benefit of a free speech. Gay Head Light to leaward during the early part of the night. Lost sight of the land at midnight. - Farewell any native land!

ed. 6. This day strong breeze from S.W. Stood along on the starboard tack all day, and at 11 P.M. tacked and stood in toward the land. All hands who were not sea-sick employed coiling whale lines into the tubs, and otherwise preparing the whaling gear. Wind moderates toward sunset. Set royals and main top-gallant staysail.

July 1882.

Thu. 27. Wind and weather fine and warm. Stood off shore again at 8 A.M. Crew employed getting spare spars stowed and secured, and rigging out the cutting stage. Cooper grinding spades.

Fri. 28. This day warm and pleasant, with moderate breeze from S.W. Steering a course the greater part of this 24 hours. from E. by S. to S.E. Employed getting boats ready, putting on chafing gear, and clearing up deck, scraping off the pitch. Several sails in sight.

Sat. 29. Strong breeze from W, and W.S.W. very heavy sea; pleasant weather, but cooler. Steering off to S. under all sail. Too rough to work in the rigging. Crew employed scraping deck as before, finishing at dark. Many too seasick to work. Two sails seen.

SUN. 30. Fine warm weather with gentle breeze, increasing toward night when it blows quite strong. Being on whaling ground shortened sail at dark.

Mon. 31. Fresh breeze from W. with fine weather. After setting sail crew employed in over-hauling cutting gear. Tacking ship occasionly, and often running off, as green hands were at the wheel.

August 1882.

Tues. 1. Wind today from N.W. Weather cool, but fine. Steering S.S.E. Four men from forward picked out in each watch for standing masthead. Employed overhauling whaling inventory and getting everything in order.

Wed. 2. Today strong breeze from W. Took in top gallant sails at 8 A.M. Fair weather. Tacking occasionly, being on whaling ground. One sail in sight. Too rough to do much work. Took in light fore and aft sail and put a double reef in the fore topsail, at sundown.

Thu. 3. This day pleasant with moderate breeze from S.W. Employed putting on chafing gear. Shortened sail at sun set, furling the courses. Boat crews selected during the day and after finishing with the sails lowered away for practice. Some of the green hands made laughable work of it, "catching crabs".

Fri. 4. Today fine and moderate. Wind W. Several jobs of work in progress. Broke out provision and water in the P.M. Took in sail at dark, leaving only lower staysails and lower main topsail, and close reefed fore topsail.

August 1882.

Sat. 5. This day gentle breeze from S.W. Sail was made at day light, but being on cruising ground the ship was kept close hauled on the starboard tack all day. Broke out from upper between decks; looked over and took account of spare sails and cordage. Washed deck at 7 P.M. Scrubbing with "fiddles". After supper lowered the boats for practice, taking in sail first. Several sails in sight.

Sun. 6. Fine weather, and gentle S.W. breeze. Made sail at day light and stood along on port tack. Several sails in sight, some bound along with us, but none could hold their own with our little clipper, she running them all out of sight before dark. Took in sail. Vocal concert on deck.

Mon. 7. Again we have fine weather and gentle breeze. After setting sail stood off on starboard tack about two points free. Carried sail all night, setting royals at dark. Crew employed various ways. Two sails in sight.

Tues. 8. This day fair, fresh W. breeze. Broke out spun yarn and rolled it up. Carried all sail until midnight, when shortened down.

Wed. 9. Squally weather with rain & strong to S.E. Employed setting up the new rigging, fore and aft stays and main t'gallant backstays. Took in sail at sunset.

Thu. 10. Better weather, but yet unpleasant. Steering off to S. and S.E. Employed various ways in the rigging.

Fri. 11. Today fair with variable wind, but moderate. Under easy sail, cruising. Employed setting up jibboom guys.

Sat. 12. Fine settled weather with moderate W. wind. Variously employed making things secure and cleaning. At 4 P.M. washed deck with sand. Mere music, instrumental and vocal, also various graceful games going on after mast heads were down. Carrying sail, but easy.

SUN. 13. Fine pleasant weather but fresh N.W. breeze. Steering on the wind on the S.W. and S.S.E. Bit of wind hauled well to N. when the vessel was E.N.E. Squall came in the evening, so much disturbing the water below that the funnel drowned & soon at six bells when the water was pumped.

August 1882.

Mon. 14. Strong breeze from N.E. cloudy and unpleasant weather. Ship kept on the wind on starboard tack. At 8 A.M. took in t'gall'nt sails. As some of the green hands have been backward about going aloft, the captain took them and showed them how to furl a t'gall'nt sail, making them loose and furl it over and over all the A.M. In the P.M. watch they took place in the other watch. Employed fixing on chafing gear. Took in sail at dusk.

Tues. 15. Unpleasant and squally weather. Took in all light sail early in the A.M. watch. Rough sea on and during the middle watch at night "Gentle Annie" rolled out of his bunk under the molasses cask, and being sea sick laid there; somebody turned the faucet and floated him back to his bunk again.

Wed. 16. Wind and weather moderate today. Employed making sennet. A row in the forecastle to find out who was master in the fore watch.

Thu. 17. Weather fair and settled. Gentle S. wind. Shortened sail at dusk. Local and instrumental [illegible]

August 1882.

Sun. 13. Again fair weather and gentle breeze jogging along by the wind. Engaged making sunnet. After taking in sail at night had more fun'ce in the boats, by way of punishment for more disturbance forward.

Sat. 19. Fine weather, gentle breeze, though variable. Work in the rigging and making sunnet. Washed down at four P.M. After tea put on sail at sundown & pair of boxing gloves were brought out, and some manly art practiced in, until ending in a row the officers knocking off & stepping to it with sail & the whole to the mast head and kept them there until midnight.

Sun. 20. Wind and weather very fine until about 4.30 P.M. a squall came on suddenly, with rain lasting but a few minutes, but carried away the flying jib. Gibbs and Crust. got into a fight on deck when the captain ordered them brought aft. They were then tied together by their right hands and told to fight all they wished to, but the one who got licked the captain would lick again. They shook each other all round,

August 1882.

Mon. 21. Fine weather and gentle breeze. Broke out a mooring jib and bent it, taking in the old one for repairs. Some stars in the rigging. The two lighters were set to turning down the jumper stays, and both stays, crosstrees, top sheet &c. thus under water. Steering full and by. Crossed in sight.

Tues. 22. Weather squally today with thunder and lightening. Set up rigging, scrubbed some of the paint work out, and at 4 P.M. sounded deep. Under easy sail in the wind, making a southerly course.

Wed. 23. Fine weather today, but with easterly wind. Employed in the rigging, as such as required it; also scraping paint work. Washed down decks at night. Here lighting in the forecastle.

Thu. 24. Cloudy weather with strong breeze from the west. Spoke an "English barkentine, Eveline" about 8 A.M. At 9-30 rose a sailing bark which proved to be the Seine, and after exchanging courtesies, "yammed" until night. Work in progress. Sent in sail at dark.

August, 1882.

Fri. 25. Strong breze from N.E. and stormy weather. Shortened sail at 7. At 4 P.M. squared away & set the Fores'l & reefed, setting it reefed, but too much wind for it, and about 10 carried it away.

Sat. 26. Strong breze and very squally. Steering S.E. ½ S. Finished repairing flying jib in the A.M. and commenced on the main royal. At 4 P.M. washed deck, those who drew the water were wet through, and the captain fearing for their health gave them ½ day's.

SUN. 27. Strong breze from N.E. Steering S.S.E. Had trouble in the forecastle.

Mon. 28. Weather milder today. Steering S.E. Broke out provision in A.M. Steering up in P.M.

Tues. 29. Pleasant today with fresh breze. Work in the rigging, turning and seizing. Washed down at 4. Course S.

Wed. 30. Fine weather, but strong breze. Work in the rigging, various ways.

Thu. 31. Pleasant and quite breze. Still working in rigging. Took in sail.

September 1882.

Fri. 1. This day pleasant and warm, with moderate breeze from S.S.W. At 6-30 A.M. sperm whales were raised, and after learning their movements, lowered all four boats, the captain using the starboard boat. Pulled, paddled, and sailed around about four hours but could not get nearer than a mile's length. Got aboard at 2 P.M. At 4 Scrubbed deck. Took in sail at night.

Sat. 2. Very pleasant and warm with gentle breeze from the S.W. Course S.E. by E., the captain being "cranky" on seeing whales. Employed working in the rigging. At 4 P.M. got out the "jiggers" and scrubbed deck. Took in light sail at dark.

SUN. 3. Again very pleasant with gentle breeze more to the westward. Made sail and steered S. all day, taking in sail at dark, hearing to on port tack. Latitude, 37° 47' N.

Mon. 4. Remain pleasant with wind as yesterday. Bent the old flying jib, and stowed the new one away. Sent up the main royal at 8 P.M. Washed down deck at 4 P.M. Took in sail.

September 1882.

Tues. 5. Calm in the morning, but breezing in P.M. Day warm and pleasant. Took in the bottom decks, overhauling fluke chains. Ark sail in sight. Took in said at 1 o'clock.

Wed. 6. Very pleasant with light airs from S. The fourth mate was sent on board of Prince Albert, and about 7.30 A.M. lowered, the second mate striking soon. The mate went too, but his boat was missed. They began an exciting race, the mate succeeded in first running about noon. The third and fourth mates chased it to leeward until six P.M., helping the boat sometimes with paddles or oars. The second mate got his whale alongside and cut in while the ship was running. The mate got his fish to the ship about dark, so after supper the watch on deck cut blubber into horse pieces, broke out blubber room and prepared for trying out. Took in sail at night.

38 Bbls.

Thu. 7. All hands called at daylight and turned to cutting in, and by six had finished. Started the try works at 11 A.M. Remained under short sail all day and night. Pleasant and warm.

September 1882.

Fri. 8. Fine weather with moderate breeze. Trying out until 7.30 P.M. finished. Made sail at 8 A.M. but took it in at dark. Five sails in sight.

Sat. 9. Weather remains fine with moderate breeze from N. Made sail and stood to northward all day. Employed in clearing up around deck, scrubbing off with sand at 4 P.M. Everything made secure during the day. Oil rubbed to rail, and tryworks stowed below. Took in sail at sunset. Four sails in sight during the day.

SUN. 10. Warm and pleasant today, light airs from S.W. At 10 A.M. a Junk hove in sight which we raised at daybreak, sent a boat aboard for fresh food, as they had the scurvy on board. At 1.30 P.M. took her in tow and at noon lowered, the mate getting a large one. Came aboard, cut him in and stowed the blubber away. More trouble in the forecastle, also on deck, the fourth mate kicking and cuffing the Gutchman for being cheeky.

Mon. 11. Very warm and pleasant with light breeze. Broke out from the after hatch at 11 A.M. In the P.M. started to mince the blubber or the blackfish. Took in sail at dark. One sail in sight.

September. 1882.

Tues. 12. This day, pleasant but cool. At 8 A.M. making sail started the try-works, and finished trying about 2 P.M. Scrubbed the bulwarks till 5 P.M. when washed down. Steering 2 P.

Wed. 13. Today warm and pleasant with moderate breeze from N.E. Standing along under easy sail all day. Employed, some in the rigging, some in the hold breaking out, and some scrubbing fore-castle. Washed deck at 4 P.M.

Thu. 14 This day cloudy with strong breeze from N.E. Hauled aback in the A.M. about two hours and struck down the oil in the two decks, stowing carefully. At noon or about that time Domingo, or our "white man" rose a large whale off the lee beam, so at about 2-30 hove to, and went on immediately, the mate striking 127 first, and the third mate soon 3bls. after. One boat killed the monster, though the third mate to play he was smart kept dancing him long after he was fast. Got alongside and turned to getting off the blubber, and at 7 P.M. hooked on and cut till 1 A.M. Turned in said. Watch on deck cutting horse pieces.

September 1882.

Fri. 15. Fair weather with fresh breeze from W. All hands were turned to at daylight, about five o'clock, to cut in and were so employed until six P.M. when finished. Took the case in on deck at three, and while bailing, a rain squall came over, causing much inconvenience, making the deck very slippery. Was obliged to cut it loose before all the oil was taken out, as the wind hauled to E.N.E which caused a heavy sea to run. Started the fry works with case oil. Rounded under short sail. Watch set at eight P.M.

Sat. 16. This day fair and cloudy alternately, with moderate N.E. breeze. Employed trying out. Made a little sail; just enough to keep the ship steady. On the starboard tack all day.

SUN. 17. Sunday very pleasant with fresh breeze from W.N.W. Set sail in the morning, and kept away to E. by N. ½ N. and at noon rose land, which we came up with at 4.30 P.M. Island of Cayo. Passed there during the first watch. Employed in the grease, the work proceeding very fast. A slight alteration took place between the mate and your humble servant, the writer.

September 1882.

Mon. 18. This day pleasant weather but a strong breeze from the N.W. making a heavy sea running. At 11 A.M. a large whale was raised. Lowered away three boats, the fourth mate remaining on board. Pulled to windward till nearly dark, the wind and sea being so heavy the ship could not beat faster than we could pull, so got on board at dark. Shortened sail and hove to on the starboard tack. Kept a out an occasional lee sail sail.

Tues. 19. Wind more moderate and weather fine and warm. Finished taping out the body at 2.30 P.M. and stabbed on the pink which was finished at 10 P.M. At midnight set all sail and bore away for Fayal.

Wed. 20. This day warm and pleasant with moderate westerly breeze. Steering for Fayal, E. by N. Employed all day in clearing up around the cutting tackles, and stowing away the gear. At one of the lookout men who caught a glimpse while on duty, the mast headmen are to stand lookout by rotation. The delinquent was given a kick and put in one of the boats to polish.

September, 1852.

Thur. 21. This day pleasant, and begins with moderate breeze, but it shows down in the P.M. Steering E. 1/2 N. Rose Pico in the A.M. and Fayal in P.M. Broke out all day and stood back at night, gaining a little space. Four sails in sight.

Fri. 22. Somewhat cloudy and blustering today. Arrived at Portorte, Fayal, at 10-30 A.M. Many traders came on board, with fruit, jackasses &c.s, and small Yankee notions, to trade for clothing. As for example:- "You give me one old shirt and one old hair pantses, I have never been wear before, I give you one jack-ass three, four apples, and two figs for nothing." Captain went ashore for letters, and fresh provisions, returning with orders for the mate to take the ship out over night, he going ashore again. Carpenter employed setting up casks. Laid all under easy sail. Several sail in sight.

Sat. 23. Better weather today. Broke out all the oil from between decks and about 2 P.M. ran down to within a short distance of the Pocket Sarah, and discharged all the oil, 165 Pls, and taking vegetables. Stood off shore again

UN. 24. This day stormy and heavy sea running, though pleasant. Stood off all A.M., then wore around and started in. Summed the brig Henry Bowbridge at night.

Mon. 25. Fine weather today laying off and on between Fayal and Pico. In the harbor nearly all day breaking out and preparing town to stow water. Washed down deck.

Tues. 26. Again fine. Layed off and on during the night, and in the morning stood close in and the W.B. and S.B. towed in a raft of seven, six and seven barrel casks, for water. Washed down decks, and stood out to sea.

Wed. 27. Arrived in about 9 A.M. and lowered away the starboard two boats to go in after the water. While near the pier one of the crew jumped overboard and swam for the shore, which caused a rising among the rest of the W. Boat's crew. One of the B.B. crew tried it but the third mate caught him with a boat-hook. The others were caught ashore by policemen. This ended [illegible]

September, 1882.

Thu. 28. Lying between the islands during the night. In the morning the boat's towed and went in after the water, which was towed aboard at 2 P.M. & hoisted in and stowed by 6, when the captain came aboard and sailed immediately, standing away to N.E. on port tack, and a strong breeze. The would be run-aways were lectured by the captain and given a job to scrape and coal for the chains and top sail sheets, also bob and jumper stays, and guys. One refusing duty was ironed and put in the run.

Fri. 29. Fine weather, westerly wind. Lost sight of land at 11 A.M. At noon it began to breeze up, and by 8 P.M. had her under lower sails, jib and spanker, the fore topsail being close reefed. At 11 took it in, also jib and spanker, and brought to on P. tack.

Sat. 30 Heavy gale all day. Took in courses at 8 A.M. and goose winged the main topsail at 2 P.M. Hove at 4, carrying away the bow boat when coming to on the other tack. The mutineer turned to this morning after seeing a thrashing from the captain.

October, 1859.

SUN. 1. Moderate during the night and by 8 A.M. had a mod. top sail set. Employed picking over sweet potatoes, and repairing damages.

Mon. 2. This day pleasant but mod. fresh N. wind. Steering southerly. Passed an Italian brig during the day. Hove to repairing boat.

Tues. 3. Strong breezes from N.N.W. Hauled light sail abt. 1 in morning watch. Broke out provision at 6 A.M. Squally at 8 P.M. Steering S.W. by S. Washed decks.

Wed. 4. Moderate breeze; pleasant throughout. Crew employed picking oakum. The sun always turned to on this job. Washed down. Steering S.E.

Thu. 5. This day fair and warm. Wind light from N.E. Employed in the rigging, putting on serving and scotchings. Commenced in the evening, followed by some fighting.

Fri. 6. Today warm and pleasant. Steering S. by W. Employed making spun yarn. Washed decks. Raised spouts at 8 A.M. which looked like right whales, but proved to be finback-backs. Washed aft. hawse.

October, 1882.

Sat. 7. Very warm and pleasant, with light breze from N.E. & N, employed making spun yarn. Third mate had a row with his watch to keep them from on deck their watch At 4 P.M. had some exercise scrubbing decks.

STTN. 8. Again warm and pleasant. Sail making today. Course southerly.

Mon. 9. Warmer, with a little more wind. Employed making spun yarn. The "mutineer" sent up to bend the fore t'p-gallant sheets. Washed deck.

Tues. 10. Raining fine and warm. Employed repairing rigging. Bow boat finished and swung out today. Steering S.W. by S. Fourth mate had trouble with his "watch".

Wed. 11. Wind and weather fine. Steering S.W. by W. Employed repairing rigging. Food getting very poor. Talk of making a run.

Thu. 12. Still fair. Several sails seen in sight. Employed in rigging. Washed decks. Mate ugly as seven devils.

Fri. 13. This day begins fair but by daylight rains up. St. Antone in sight. Work in the rigging until P.M. Spoke bark Rousseau in P.M. Fine in light wind.

October, 1882.

Sat. 14. Squally in A.M., warm and fair in P.M. Commenced painting ship. P.M. Took in rigging. Washed decks.

SUN. 15. Warm and very pleasant. Moderate breze. Steering to south. Rowed ashore.

Mon. 16. This day warm and pleasant in A.M. but squally in P.M. Rain at night. Employed setting up head stays. Two sails in sight.

Tues. 17. Squally in A.M. Fair in P.M. One sail in sight. Employed setting up fore rigging. Fair back seen.

Wed. 18. Today squally, and often rain falling at times. Do work on deck but surfing off deck.

Thu. 19. This day squally and rainy. Wet surfing and scrubbing the sails.

Fri. 20. Still squally. Employed scrubbing the sail. More light this forward.

Sat. 21. Very warm and pleasant, with light air. Broke out and bent a new fore topsail. More rain during the night, and otherwise more scrubbing deck. Scrubbed between a boat to starboard side.

October, 1882.

SUN. 22. Very warm and pleasant, with a variable wind. Steering southerly.

Mon. 23. Light breeze and quite pleasant. Broke out in the tween decks all day.

Tues. 24. This day squally with little or no wind meantime. Several sails in sight. Gammed bark Golconda of Swansea at four P.M.

Wed. 25. Nothing but rain and a strong N.E. breeze today. Steering S. by W. ½ W.

Thu. 26. Dull dreary weather. Breaking out all day. Several sails in sight.

Fri. 27. Squally in A.M. but clear in P.M. Work breaking out. Washed down.

Sat. 28. Rain again with moderate wind. Work breaking out and re-stowing.

SUN. 29. Heavy rain and fresh breezes. Two sails in sight. Washed deck at 8 A.M.

Mon. 30. Better weather today with gentle breeze. Breaking out and stowing away smuggler, our occupation.

Tues. 31. Fair and moderate today. Steering southerly courses. Broke out.

November, 1882.

Wed. 1. Pleasant weather with a fresh breeze. Breaking out and overhauling all day. Washed decks.

Thu. 2. Again pleasant with fresh breeze. Crossed the line about four A.M. Breaking out ore occupation.

Fri. 3. Fresh breeze again today. Rose a large sperm whale about 10 A.M. Lowered three boats, but could'nt get within striking distance. Boats came aboard at six P.M.

Sat. 4. Gentle breze today and fine. Work in the hold again.

SUN. 5. Cloudy and dismal with variable wind. Steering S.S.W.

Mon. 6. This day fresh breze and cloudy. Work in the hold stowing.

Tues. 7. Again fresh breezes and unpleasant. Finished in the hold at 8 A.M. At four P.M. scrubbed down with sand for two hours.

Wed. 8. This day cloudy with strong N.E. breeze. Work making new fore-topes for fore yard. Ship made 300 miles since Oct. 31.

November, 1882.

Thu. 9. This day warm and pleasant, with gentle breeze. Work in the rigging all day. Washed deck.

Fri. 10. Still warm and pleasant with gentle breeze. Took a spare fore topsail and cut in two to make a double topsail. Washed deck.

Sat. 11. To day light breeze and calm. Two sails in sight. Employed sail making all day. Washed decks at 4.

SUN. 12. This day cool and squally. Carried away flying jib at 7 30 A.M.

Mon. 13. Cold and dreary with fresh S.E. breeze. Work on flying jib.

Tues. 14. Cool again, with moderate weather. Employed on the flying jib. Several sails in sight. Washed decks.

Wed. 15. This day cool and squally. Labor on flying jib in A.M. Fixing the new lower fore topsail yard.

Thu. 16. This day warm and pleasant, gentle breeze from S.S.E. Bent the flying jib and completed the work on the topsail yard. Plenty of backs around.

November, 1862.

Fri. 17. Uncomfortable weather, foggy, and at times rain. Light airs from S.S.E. Work on new topsail.

Sat. 18. Still unsettled weather with fresh breeze. Work on topsail.

SUN. 19. Today has been wet, foggy, and very uncomfortable. Fresh breeze.

Mon. 20. Remain so and disagreeable. Rose the island of Tristan de Cunha at daylight. The waist and bow boats were sent in to fish after taking the captain ashore. At night boats came aboard from the island to trade. Breaking out on board the ship all day. Procured several bushels small potatoes. Sailed to southward at dark.

Tues. 21. Light breeze and pleasant, but cool. The try works were called in use today to boil raw fish. Work on topsail. Steering S.S.W.

Wed. 22. This day very warm and pleasant for this locality. Gentle breeze from S.W. Employed repairing staysail, jib and mainsail. Broke out and bent a new fore sail. A sail is now forward at 1 P.M.

November, 1882.

Thu. 23. A very fine day and moonlight night; warm with north breeze. Employed sewing on old main sail. Third mate had trouble about the watch sleeping on deck.

Fri. 24. Another fine day, but clouds up at night. Work on sails. Washed deck.

Sat. 25. Cloudy but warm. Wind gentle from N. Rose right whales early and chased all day, but they turned flukes just as a boat got about to striking distance.

SUN. 26 This day foggy and sometimes rainy. Light air from northward. Washed deck in A.M. Took in all light sail and upper topsails at dark. A large shoal of porpoises around the ship nearly all day. Struck several, and now for a superabundance of balls.

Mon. 27. Commences warm and fair, but closes wet and uncomfortable. Broke out grub in A.M. In P.M. worked on sails. About 4 P.M. three finbacks came under the bows. The boy was not trying to strike a porpoise, and so struck one of them. Made some fun.

November, 1882.

Tues. 28. Somewhat unpleasant to-day with gentle breeze from N.E. Employed in the rigging all day, putting on serving and otherwise repairing chafing gear. Washed decks.

Wed. 29. Again unpleasant with strong breeze. Employed in the rigging squaring rattlines and tarring under sentinel. Foggy, and at times rainy at night.

Thu. 30. This day cold with a fresh breeze from S.W., but quite pleasant until about 4 P.M. when clouds up. In the course of the starboard watch got into a row, when the fourth mate struck me with a heave knocking him senseless. At noon fell in with the ship Queen Mary with boats down, so lowered away immediately and after getting near enough to strike by indescribable hard work the whale was gained by the outcries of the ship's boat, which had followed close. The same boat afterwards struck, but the iron drew. Gammed at night until eleven o'clock.

December, 1882.

Fri. 1. Fine weather today with gentle S.W. breeze. Got the boats ready in the morning, but did not see a whale. Employed in the hold.

Sat. 2. Strong breeze and cold. Lowered about 7 a.m for two right whales, and after sailing and dodging for four hours the mate went on but missed. The fourth mate also missed, which made a row after we got on board Raining when we gave up chasing.

SUN. 3. Fine weather today with moderate breeze from eastward. Washed deck.

Mon. 4. Warmer and less wind today. Unbent the Spanker. Rose fin backs and blackfish, but too busy with sails to chase. Plenty porpoises around. The old man darted three times and missed, which caused much laughter. Rose a right whale at dark.

Tues. 5. Uncomfortable during the night but a pleasant day Some employed on sails, some in the boats.

Wed. 6. Fine weather, gentle breeze. Employed on sails.

December, 1882.

Thu. 7. Again warm and pleasant. Employed preparing old junk for spun yarn. Washed deck.

Fri. 8. Warm and pleasant. Work making spun yarn. All sail in sight. Shortened sail.

Sat. 9. Begins with light breze, increasing to fresh & dark. Make spun yarn till 4 o'clock when cleared up and scrubbed deck.

SUN. 10. Strong breze in A. M. but gentle in P. M. Steering W. N. W.

Mon. 11. Strong breze and unpleasant. Ship under short sail all day. Crew employed making rinlet.

Tues. 12. Cold and stormy till four P. M. when moderates. Crew called aft around mizzen mast to shake rinlet. Washed deck.

Wed. 13. Wind and weather improving today. Work in the rigging. Plenty fish back astern.

Thu. 14. Pleasant today with gentle S. E. breze. Sail making all day. Washed deck, and latter in P. M.

December, 1882.

Fri. 15. Cold, rainy, and disagreeable. Strong breeze. Ship under short sail. Made sinnet in A.M.

Sat. 16. This day same as yesterday, but moderates at night. Plenty feed around, and at dark a right whale blew alongside. The mate wanted to lower. Made sinnet all day. Washed deck.

Sun. 17. Fair and warm today. Set sail and steered S. by E. 1/2 E. Raised hump, and fin backs.

Mon. 18. Fair and pleasant but cooler. At P.M. comes up foggy. Made sinnet all day. Fin backs in plenty. The old man bombed one, but did not hurt him.

Tues. 19. Strong breeze today with a very high sea running. Short sail on the ship. Making sinnet aft under the house. Moderates at night. Fin backs around.

Wed. 20. Today fair and warm. Sent up the new lower fore topsail yard, and bent the sails. Rove off the rigging and after washing deck took in sail. One sail sent.

December, 1882.

Thu. 21. Very cold, wet, foggy, and uncomfortable. Raised a large right whale at 6 A.M. and lowered, but soon lost sight and came aboard, but just as the boats were hoisted he came up again, so lowered, and after several hours tugging at the oars, in which time the wind had increased to a gale, the mate got fast, and came near losing his boat and crew by holding on, but he was killed at last, and at 5 P.M. took him alongside, but the line parted and away he worked to windward. It was with difficulty the ship run up to him, when the captain, mate and third mate put irons into him with several lbs of line on each iron, which was payed out till the whale was about half a mile to windward; then hove to waiting for moderate time.

80 Bbls.

Fri. 22. Strong S.W. breze and tremendous sea running. After noon the boats went up to the whale with lines from the ship, and by this means was hauled to the ship. Got up cutting falls and cut in all night.

December, 1882.

Sat. Strong breeze all this day.
23. Kept the ship before the wind all night while cutting in, and at noon finished. In the P.M. started the try-works, some employed getting cutting gear down and smugged up. Took care of the bone, cutting it in pieces with four slabs on a piece. The cook having had trouble with the steward and boy, thought he had lived long enough and jumped overboard during the P.M. about three. He was some distance astern when discovered, the ship making about one knot. He was picked up by a crew who jumped into the larboard boat. Kept under short sail trying out.

SUN. Moderates during the night and
24. by daylight fine weather. Trying out all day. Cook nearly played out by his soaking yesterday. The "captain" spliced the main brace" at four P.M. One of the Americans in the starboard watch succeeded in stealing the jug which was left in the hurst, aft, he being at the wheel, and he took more than his allowance of Jo d[illegible]s.

December, 1882.

Mon. 25. Christmas dawns bright and pleasant, with gentle breze from S.W. Finished trying out about noon. Employed in P.M. coopering casks. Took in sail.

Tues. 26. Fine and pleasant today. S.W. breze, about a cuple sail. Employed stowing down, finishing about 6-30 P.M. Under strut sail all day, but at dark made sail and stood off to S.S.E.

Wed. 27. Again fine weather with light breeze. Employed scrubbing rail and deck all day. At 4 P.M. rose a sail. Took in sail.

Thu. 28. Remains fine with gentle breez. Employed scraping bone all the A.M. In P.M. gammed ship Sarah Perry. Squared off at 11.

Fri. 29. Moderate all day with rain in P.M. Gammed bark Sea Ranger.

Sat. 30. Warm and fair; fresh breeze. Were hauled cutting sail in a.m. Washed deck in P.M.

SUN. 31. Gammed ships Tiger, Sarah Perry, barks Sea Ranger, John Gunn

January, 1883.

Mon., 1. Cold and blustering till about 8 A.M. when moderates. One sail in sight.

Tues. 2. This day cold and unpleasant, wind blowing hard. Broke out water.

Wed. 3. Warmer and moderate today. Tried to westward. Steering E. Employed making sennit and sewing sails.

Thu. 4. Pleasant till a.m. Cold and foggy in P.M. Rose right whales in the morning and lowered at 10 30. Third mate hurt his hand and stopped aboard. Came in too foggy to chase so returned. Saw more turning flukes at dark.

Fri. 5. This day very pleasant with moderate breeze from S.W. Rose right whales at 11 A.M., and at noon lowered the old man going in the B.B. The second mate struck without much trouble, and then the fourth mate. The B.B. struck with the W.B. and the mate with the S.B. Got them alongside by ½ P.M. and got things ready and by 9 had one cut in. Hatch then set.

130 Bbls.

Sat. 6. Turned to at daylight and at noon had the other whale cut in. Rose another and then two boats lowered, the W.B. capturing a large female.

70 Bbls.

January, 1883.

SUN. 7. Fine, warm weather with light breeze. Turned to at daylight, and by 10 had the whale cut in. The try-works running full blast.

Mon. 8. Somewhat cloudy today with a fresh breeze. Employed trying out, and cooping casks.

Tues. 9. Warm, with occasional showers of rain. Trying out and stowing down as occupation. Made a row with Abel, Kani about the grub, which is getting putrid.

Wed. 10. Very pleasant till noon, when it rains a little. Stowing down all day. Finished trying and about 10 P.M. Set sail and stood to N.

Thu. 11. Strong breeze with cloudy sky. Port watch were three hours taking in upper main topsail. Stowing down and clearing up. Washed deck after dark, by aid of the lanterns. Gunned back Princes about 11 P.M. Took in sail.

Fri. 12. Fine weather with moderate N. wind. Hove-to at 11 A.M. stowing in main tween decks; at 2 P.M. scrubbing with sand and hoe.

January, 1883.

Sat. 13. Cloudy and a fresh breeze today. Employed scraping bone. All hands.

SUN. 14. Begins foggy and disagreeable but clears off about noon. Spoke ship Eliza Adams at night.

Mon. 15. This day fine and warm in A.M., but wind increases to a gale from S.W. at dark. Took in all sail.

Tues. 16. Blowing very heavy from S.W all day. At 7.30 P.M. hauls to northward and comes in foggy. Kept off S.S.W under short sail. Employed picking oakum.

Wed. 17. Still blowing hard from N. Set watch [illegible] at 8 A.M. and kept running SS.W. till midnight when took in sail and hove to on port tack.

Thu. 18. Strong breeze in A.M. moderating in P.M. Very cold. Took in sail.

Fri. 19. Much warmer and quite pleasant. Overhauled potatoes all day. Spoke with ship Eliza Adams at night. The captain and wife coming on board. Had open air concert.

Sat. 20. Under easy sail today as blowing a gale from S.W. Washed decks.

January, 1883.

Sat. 26. Remained here over Sun. Fresh S.W. winds with a heavy sea & occasional showers all day and at 2 P.M. barometer 29.70. Sea made getting a small one. Sent on board alongside and boy & pig and took in 15 Bbls. water.

SUN. 27. Wind and weather fine. Remained at anchor all night, and at 5 o'clock were informed, on the L.B. getting a 40 barrel bulk. Sent him alongside, cut in and stowed the most of it when at 6.30 P.M. hauled again. Sea made strong & was driven Southward.

Mon. 28. Strong breeze from S.S.E. & cloudy. Weather tryingout. Sent down cutting gear.

Tues. 29. Strong breeze and rough sea & cloudy. Finished trying out at 7 P.M., then made sail, standing to N.N.W.

Wed. 30. Moderate breeze and very heavy sea. Rose considerable about 10 A.M. but did not lower till 4.30 P.M. & until this date last of more. Stood to S.W.

Thu. 31. Pleasant today with gentle breeze. Rose considerable 6.30 A.M. and at 10 A.M. got a long boat alongside, took on board about 20 Bbls. and 1 pig. Sent boat on shore, then covered up.

June, 1853.

Fri. 1. Pleasant with light breze. Turned to at the junk, when at 10 A.M. the old man lost a boat's crew of finners, and in half an hour lowered. Had some difficulty getting mast, but all got off at last together, and all missed but the mate, who got a small whale. Second mate missed again. Went aboard at dark and cut the whale in, then stood boat crew watches. The old man gave the "pole drivers" a free lecture.

Sat. 2. Another fine day. Started the try works at 6 A.M. but the old man lost a whale at 9 30 and so lowered. The first and fourth mates fastened, then the school started to windward. Got the two alongside and cut them in by dark. Trying out all night.

Sun. 3. Pleasant all day. Employed trying out. Spoke ship Eagle.

Mon. 4. Fine weather, stiff breeze. Finished trying out at 7 30 P.M. Stowed down all P.M. Spoke bark Petrel at night.

Tues. 5. Cloudy with strong breeze. Employed stowing down. Stowed down all day. Washed decks at 6 P.M.

June, 1883.

Wed. 6. Strong breeze and cloudy all day. Rose whales at 12.45 P.M. and immediately lowered the first and third mates & Tashtego in the second mate's boat for the second mate's boat. Stubb's crew lowered from the main deck. The third mate's boat was struck & stove & capsized (it had been damaged) just in time to take the W. B. from the second's lance. The second's lance, and when it was hauled to windward so capsized, was up. Had a cut at Sperm.

60 Bbls.

Thu. 7. Better and thus to-day. Gave chase at 6 A.M. and was in the whales by noon. At 2 P.M. cut in and was stuffed the fluke. Lowered the blubber at night. Whales small.

Fri. 8. Cloudy with strong breeze. Light out all day. Blubber boiled.

Sat. 9. Remains cloudy and unsettled. Finished trying out at 11 A.M.

Sun. 10. Again cloudy and stormy. Very cloudy & stormy. Spoke the Pilot at night. Wind fair.

June, 1883.

Sun. 11. Strong breeze and cloudy. Stood down all day, hoisting out at night. Petrel in sight all day.

Tue. 12. Cloudy and at 10 A.M. wind increased to a gale. Took in foretopsail and main-sail in P.M.

Wed. 13. Wind and weather unpleasant. Wore around on port tack at noon.

Thu. 14. Wind abating at daylight; at 8 set fore topsail, and at 12 M. main sail.

Fri. 15. Gale abating cloudy. At dark hove to with light sails set. On port tack.

Sat. 16. Strong breeze all day and cloudy. At 7 A.M. the fourth mate lost a chest of whites, so lowered, and after pulling to windward about six hours the mate turned up, but missed with both gigs. Went down again a few minutes after and missed. Came around at dark, and then the Captain made a long discourse. After the mate's return, I wanted to put [illegible] in his place, but the mate thought that no man to understand and carry, he would not take him

June, 1883.

SUN. 17. Cold and blustering today. Hauled S.S.E. Steering N.N.E. at dusk, when took in sail.

Mon. 18. Cloudy, and nothing remarkable today. Employed scrubbing Bulwarks.

Tues. 19. Strong breeze, and cloudy. Steering same course. Wind abeam.

Wed. 20. Breeze moderate, but yet cloudy. Sent down Jibboom & gaff to scrub decks. Steering same.

Thu. 21. Variable & unsettled. Finished the scrubbing, & at 11 A.M. hauled down Courses to dry sails &c.

Fri. 22. Very warm and pleasant today, with gentle S.S.E. breeze. Employed securing on the sails.

Sat. 23. Again cold, cloudy, & blustering through the day. Finished the fore topsail, & set it, and in the afternoon furled & secured the Bulwarks and deck, finishing by half an hour after dark. Exchanged salutations with each other about 8 bells.

June, 1853.

SUN. 24. Again pleasant with light breeze. The cooper rose whales at ten and at noon lowered, the third mate [illegible] the mate, and the captain taking the S.B. with the waists to steer him, leaving Bennett on board. The mate struck first, then the captain, then the fourth mate, who broke iron, and last the second mate. The captain cut line to assist the S.B. and then struck another. The W.B. got two whales. Got all things ship'd at dark. We, [illegible] sent Bennett to steer the mate and upon humble entreaty to steer the third mate. Antone sent forward.

125 Bbls.

MON. 23. Very warm and pleasant with a [illegible] S.E. breeze. Turned to at 6 A.M., daylight to cut in, and at 5 P.M. finished the five, after which started the try works. Knocked off.

TUES. 26. Calm, warm and pleasant with light S.E. breeze for 5 hrs. Employed in [illegible] painting, bailing casks, and filling out. Set down the cutting gear in P.M. by way of practice. Set sail in the morning and run off to the N.E. by E. for four hours, then hauled to on the starboard tack and [illegible]

June, 1883.

Wed. 27. Fine early part and [illegible] with gentle breeze & [illegible] trying out till about 8-30 A.M. when [illegible] and so [illegible] after that time [illegible] then the second mate went on and struck. Got [illegible] and commenced to work [illegible] at 2 P.M. [illegible] the same school again. The second mate [illegible] and [illegible] Fine [illegible] and [illegible] fishing [illegible]

30 Bds.

Thu. 28. Again [illegible] with moderate breeze. Fine out all day. Second mate and four men employed in the hold trying to make room for oil.

Wed. 21. Cloudy and cold, heavy swell from S.W. wind from that quarter.

Thu. 22. Strong breeze with cold rain squalls by. Show-hail and sleet.

Fri. 23. This day pleasant, but cold. Broke out water and put on watches today. One sail in sight. About 1-30 P.M. 3rd mate saw Lukes near the ship, but did not see it again.

Sat. 24. Pleasant with fresh breeze and some warmer. Rose in Lunge from noon at 10 A.M. and soon moved. 3rd mate struck and soon after the B.B with him, desperately low wind and getting very cold at 2 P.M. Turned to getting in and before dark had the four in, when set the watch. Port watch knocked out [illegible]

November, 1883.

Sat. 25. This day clear and with moderate breeze. Turned to 4.30 a.m. and by noon had the whale cut in, tank and case were taken care of in P.M. Started the try works.

Sun. 26. Rain and fog today, fresh breeze. Cut up junks and cleared decks. Could clear account of rain.

Mon. 27. Cloudy with light breeze, clear in P.M. Started the works at 6 a.m. when at 8 raised a large whale, spun and lowered, pulling to windward. The second mate struck but was repaired, the B.B. taking his and soon killing the whale. Towed to the ship about five miles. Got up gear before dark.

Tues. 28. Strong breeze and supposed we Commenced to cut in, but one of the upper cutting block straps parted and had to knock off. Made a new one while trying out. Stowed down some in P.M.

Wed. 29. Strong breeze. Began cutting in early and finished at noon. Too rough for the head so payed it out to windward

Thu. 30. Moderate so we took the head in, in P.M. Got cleared up by dark. Trying out all day. Under short sail.

December, 1880.

Sat. 1. This month begins cloudy and ends the same. Laying out. Stowing down.

Sun. 2. Cloudy till noon then clear. Finished laying out 11 a.m. Stowed cable below 9 P.M, turned in and stood anchor watch on port tack. Rec'd S.W.

Mon. 3. Pleasant today. Employed cleaning and scrubbing up. Staing W.N.W.

Tues. 4. Begins about 3 a.m to blow up, and by daylight had hauled down topsails, jib and spanker. At 7-30 a.m. turned to all hands for the boats on usher boats, and passing out cable. Took in the sail but mizzen staysail, which was carried away about 11-30 a.m. Took all hands two hours to furl the mainsail. Put the wheel hard down and lashed a tarpaulin in the mizzen rigging. Gale abating at midnight.

Wed. 5. Moderating all day. By dark calm. Broke out and bent new staysail and made sail as was permitted. Got cyst into the boats.

Thu. 6. Gentle breeze and pleasant. Rove new running rigging and repaired the slight damage. Scrubbed deck.

December, 1883.

Fri. 7. Cloudy with strong breze. Under short canvass. Brot out pursuits.

Sat. 8. Wind increasing. Employed scraping teeth. Sewed deck.

Sun. 9. Very pleasant, gentle breze. Came around on the port tack at dark.

Mon. 10. Again mild but wind increasing at 2 P.M. Reefed on Tuesday locks.

Tues. 11. Strong S.W. breze, - at 4 A.M a squall suddenly struck near sending the old bark on her beam ends. Carried away fore topmast in the cap, also the main top gallant mast and the fore sheet which tore the sail badly. Called all hands and took in sail. Hove to all day.

Wed. 12. Blowing a gale all this 24 hours. Hove round at noon. At 7 P.M the ship Cape St. Vincent of Greenock crossed our stern steering S.E. by E. (Afterwards reported Tues.)

Thu. 13. Gale as fresh as ever this 24 hours. Heading more to west.

Fri. 14. Moderate after noon. Up wheel and steered N.N.E. till 11 P.M.

December, 1883.

Sat. 15. Moderate today. Employed all hands repairing damages also made a smoke sail. Scrubbed deck.

SUN. 16. Warm and pleasant. Made two right whales at 8 30 A.M. and at 9 lowered, the B. B going ahead and getting fast soon after. H. B. struck with us, but whale along-side by noon, and by 6 P.M had 60 bbls. sun in the blubber room. Started the try works. The mate was sent owing to slumbers of the boat steerer, (he said) so that he could talk, so Craig & Brown were being sent to the B. B. and the mate to steer the mate.

Mon. 17. Pleasant and warm. Rose right whales at 6 30 A.M., and lowered immediately. Dodged around till about 2 P.M. when the H. B. went on, but missed a good chance. Came aboard and drove Knees. putting Griffeth in his place.

Tues. 18. Again pleasant. Trying and all night and till 1 30 A.M. when a right whale was raised. Lowered, and very soon the B. B. struck with Peter gun killing the whale. Got along-side and cut in by 4 P.M.

December, 1883.

Wed. 19. Rose a right whale at 6 A.M, and immediately lowered, the H. B. soon striking a large fellow. Unfortunately the Pi ree gun was not used. The whale ran to windward for hours, only giving one chance to bomb. At last he milled to leeward and we thought we had him but he soon turned again. Hung on till dark when he took all our line and the drug, also two irons, one lance, and five bombs, and Spouting Bear when seen last. Came aboard and broke out two line. Finished bringing it.

Thu. 20. Warm and pleasant till night, when, comes in foggy. Lowered for right whales about 10 A.M. Mr. S. stopping on board to boil, pulled a mile to windward and set sail. Mr. Tate went on, hyeowding Allen out, but he missed when gotten! No whales. Came aboard soon after, and lowered again at 4 P.M. but without success.

Fri. 21. Pleasant but cool. Fresh breeze. At noon finished trying out. Stowing down all day. Made sail at 9 P.M. on port tack standing N.W. Heard whales all day.

December 1862.

Sat. Warm and fair with light breeze.
22. Finished steering close at 4 P.M.
A shocked was carried at 2 P.M. but
it had been clear a long time.

SUN. Blowing a gale from S.W. Began
23. to moderate at 10 P.M.

Mon. Fine weather. Stood out all day
24. in towards shore, to make sure.

Tues. Again fine weather. Stood out early
25. yesterday & took Bird in shore.

Wed. Cloudy, light breeze. Took in rigging
26. Passed down some Two miles.

Thu. Again cloudy with fresh breeze. Came
27. with back. Also Edmunds Friday.

Fri. Still cloudy with moderate breeze.
28. Jammed back to Tuesday Tuesday.

Sat. Foggy today with cold breeze.
29. Took out the bower cable &
it today. Jammed back to Wed.

Fri. 8. Pleasant. L.B. stopped on board to assist in getting under weigh, when he lowered. Anchored at dark. Cleared up and furled everything.

Sat. 9. Boats lowered and chased around. L.B. striking, but got carted out. S.B. assisted in getting under weigh. Kept in a N. by W. course all night.

SUN. 10. Lowered at 7-30, ship coming to on inshore tack and made sail. S.B.B. went ashore to a settlement showing French flag. Returned at 4 P.M. and stood N. E. on a bar at 7. Lowered all the boats and found but 2 F. all around. Wind breezed at midnight, and we came off uninjured.

Mon. 11. Lowered as usual. S.B. went on out missed. Worked ship after the boats. Crossed the line at 3 P.M.

Tues. 12. Mate and second mate went on today but missed but excusable as the darts were long. Anchored at night, but dragged all night.

August, 1887.

Wed. 13. Warm and pleasant. Lowered all but B.B. who remained to get under weigh. Anchored at 4 P.M. at Pine's Island and S.B.B. went ashore, returning at 8.

Thu. 14. Strong breeze. S.B. assisted in getting under weigh when boat to windward all day, anchoring at dusk.

Fri. 15. Foggy and strong breeze. Got under weigh and stood E.N.E. coming to anchor at 3 P.M. near Chrisoe Island. S.B.B. went ashore.

Sat. 16. Lowered as usual. N.E. strong. The S.B.B. was ashore at the time but saw signals from the ship, sowed off and got under weigh and at 8 P.M. had a tackle on the fin and bow taut so set watch.

S.W. 17. Blowing hard today. L.B. and S.B. lowered, the others turned to and cut in, after which lowered. S.B.B. crew cleared up. Whales very wild.

Mon. 18. Boats went down as usual. N.B. went on but missed. Started the tryworks. Cooper made iron grates to keep the blubber off the bottom. Griffin allowed five more shares.

August, 1854.

Tues. 19. Boats lowered as usual. Whales plenty but wild. 2d. B. missed, was in camp in consequence. Finished trying out at 4 P.M.

Wed. 20. Rain about all day. Lowered all but S. B. B. who stowed down the oil. Cleared up in P.M. at 6.

Thur. 21. Strong breze all night. At 2 A.M. the devil's claw slipped and several fathoms chain ran out, breaking four whelps on the windlass. Turned out and got a rattling luck on for security. At daylight hoisted and hove up. Boats lowered at once. 2d. B. struck at 2 and got alongside at 5 and by dark commenced cutting in. Got fatted this whale.

Fri. 22. Cut horse pieces in A.M. Anchored at 2 P.M. S. B. B. lowered and struck with both irons, (something rare humpbacking,) but got stove, so cut. The W. K. got the whale as the irons killed it. S. B. got a good whale, getting alongside at dark.

Sat. 23. Turned to and cut in, after which lowered as usual. S. B. B. started by two B. B. got another whale.

August, 1884.

'UN. Got B.B. picked up at 2 A.M. and
24. whale cut in by daylight. Anchored
at 9 A.M. Trying out day and night.

Mon. B.B. stopped on board all day, boiling
25. and stowing down. Saw no whales.

Tues. Finished trying at 10 A.M. L.B got a
26. small whale, and N.B. struck a cow
which sank. Cut in L.B. whale by
4 P.M. Left two men in boat by N.B.'s

Wed. Turned out 3 A.M. and started to try
27. N.B. whale to ship, arriving at noon.
Cut in and started works.

Thu. Rain today but trying out and stow
28. ing down. Coopered three boats.

Fri. Much rain. Had to cool down at 1 A.M.
29. B.B. stopped on board. Stowing down.

Sat. S.B. stopped on board. Finished
30. trying out at 2 A.M. and got all
stowed by noon. In P.M. cleaned
up gurry in tween decks.

'UN. Cloudy with strong breze from S.E.
31. Started to at 7 A.M. and got under
standing off shore. Took in S.B.B.
ow and four humble servant sent
bbs. back to steer the male.

September, 1884.

Mon. 1. This day strong breeze and cloudy. Employed cleaning and scrubbing. Tacked at 2 P.M. and stood to E.S.E.

Tues. 2. Pleasant with fresh breeze; Scrubbing ship again to-day. Standing off and on the shore. Wind from S.E.

Wed. 3. still fair with moderate S.E. breeze. On port tack this 24 hours. Work in rigging, and washing mats.

Mon. 13. Cloudy with showers. Came to and got the old man at 4 P.M. and stood off on port tack.

Tues. 14. Pleasant in A.M. but breeze up in P.M., shortened sail in proportion. Scrubbed deck at 7 A.M.

Wed. 15. Cloudy and squally. Employed making and taking in several sails.

October, 1887.

Thu. 16. Again squally and unpleasant. Wind strong from S.E. On port tack heading about S.S.W. Employed picking over potatoes and making sennet. Saw one sail.

Fri. 17. Moderate today, with moderate S.S.E. breeze. Work on new running gear, picking oakum, and making sennet.

Sat. 18. More wind today, but pleasant. Broke out provisions, water, and coal. Bent new mainsail.

SUN. 19. Changable weather from strong breeze to calm by midnight. Carried away flying jib about daylight.

Mon. 20. Fine weather with moderate breeze. Sent up flying jib and bent new one. Work repairing old sails.

Tues. 21. Again fine with gentle breeze. Took in the starboard boat, thoroughly repaired her and put her back. Still close hauled on port tack.

Wed. 22. Squally weather. Wind hauled to S.W. at 10-30 a.m. so tacked, and stood to S.S.E. Took in L.B. for repairs. Painted the S.B. and worked on the L.B.

October, 1877.

Thu. 23. Cloudy with fresh breeze from S.W. Put up B. B. on the cranes and painted her and the B. B. Again at 8 P.M.

Fri. 24. Fine weather today and moderate breeze. Work around the ty works.

Sat. 25. Again fine weather. Broke out all 'tween decks for new sails, and broke out water, pumping in all

Sun. 26. Fine today. Lowered for blackfish at 11 A.M and each boat got one. Cut them up and washed down by 2 P.M. Breezing up at 11 P.M.

Mon. 27. Cloudy and calm. Moored and tried out the blackfish in the P.M.

Tues. 28. Light breeze and pleasant today. Bent new head sails.

Wed. 29. Fine weather. Steering S.E. by S. Work on an awning made of two new main stays'ls

Thu. 30. Today pleasant. Bent new topsails all around, Stowed away our

Fri. 31. Cold and windy. Bent new main top gallant sail, repairing old one and sending it at the

November, 1871.

Sat. 1. Cloudy and uncomfortable, some rain. Broke out water.

SUN. 2. Again disagreeable weather. Strong breeze. Steering E. S. E. Lat. 35° 36' S. Fog at night.

Mon. 3. Cold, foggy, rainy weather. Strong S.W. breeze. Made six swabs in A.M. watch. Shortened sail.

Tues. 4. Wind and weather same. Steering N. by E. Work picking oakum.

Wed. 5. Wind strong from S.W. in A.M. increasing to a gale by 3 P.M. Hove to on port tack heading W. by S. Took in both lower topsails.

Thu. 6. Moderates by daylight and by noon gentle breeze. Set sail and stood to S.S.E. Broke out bread.

Fri. 7. Strong breeze, squally and cold. Steering S.E. till 4 P.M. when took in sail and hove to.

Sat. 8. Pleasant with fresh breeze. Lowered at 3 30 P.M. for a large sperm and soon the L.B. struck with Peirce gun. Got her side by 7. 115 bbls. Boat over 60 feet.

November, 1884.

SUN. 9. Pleasant but strong breze. Got tackles and gear running & got ready during the night commenced to cut on at 5 A.M. Got the junk and case in by noon, and by 8 P.M. finished and had the deck clear. Stowed the try works at 4 P.M. Saw one sail.

Mon. 10. Fine weather and gentle breze. Commenced to cut junk and boil case at 7 A.M. Set topsails during the day but shortened down at dark. Saw a spout.

Tues. 11. Cloudy with frequent showers of rain. Employed trying out. Then oil in the tank at 4 P.M.

Wed. 12. Fine weather and moderate breze. Finished trying out at 8 P.M., then filled the pots with water and boiled fluke chains and straps. At 3 scrubbed decks.

Thu. 13. Again fair with gentle S.W breze. Finished stowing down at 8 P.M. Employed clearing try gear and making out provisions. Rose Bank Mermaid in P.M. and spoke at night.

November, 1854.

Fri. 14. Strong breeze. Rose right whales and lowered but after chasing a few hours returned at 4 P.M.

Sat. 15. Cloudy and foggy in P.M. Strong breeze. Lowered for right whales at 11 A.M. the two quarter boats striking S.B. killed theirs but the L.B. was carried about 20 miles to windward, then got smashed to the devil. Laid on half the boat all night up to our neck in water, sea breaking over us every five minutes. Lost our poor fellow about 10 P.M. as near as we could judge. Ship picked up S.B whale and beat to windward all night. Spoke bark Bertha.

SUN. 16. Picked up L.B. about 8 A.M. One more poor devil found his grave in the sea about daylight. We were all so near gone that we could not stand up when picked up. Blowing strong. Cut in the whale, finishing by moon. Got the S.B.B. boat on larboard cranes. Cleared away the bone from the head, and stowed it away. Commenced fore-cutting at 3 P.M.

November, 1887.

Mon. 17. Begins to breeze at daylight and by noon had to reef down on account of the gale. Shortened down to Storysails.

Tues. 18. Strong breeze all this 24 hours. Started to try again at 6 A.M.

Wed. 19. Moderating all day, but cloudy. Finished trying at 11 A.M. and stowed all down by 3 P.M. Set sail at night, as we finished saw a big sperm whale going to windward.

Thu. 20. Cloudy with gentle breeze. Rose four large sperm whales at 6 A.M. and burned, the S.B. remaining. Did not strike till 3 P.M. when the S.B. got on. 11/10 Got alongside at 6 P.M. and Bbls. hooked on and things snug when all but boats turned in.

Fri. 21. Fine weather, gentle breeze. Turned to at daylight to cut and by 6 P.M. had all cut in and case bailed. Started the try works.

Sat. 22 Again fine. Boiling and stowing down all this 24 hours. Head made 60 Barrels.

November, 1884.

SUN. 23. Strong breeze with fine weather. Boiling and stowing down. Saw a sail at 4 P.M.

Mon. 24. Pleasant with moderate breeze. Finished trying out at 10 A.M. and stowing down at 7 P.M. Work on deck cleaning up.

Tues. 25. Hove up about daylight and by noon blowing a gale. Took in sail and made things snug.

Wed. 26. Blowing a gale all day. Sent down cutting tackles. Spoke the ship Eliza Adams. Lat. 37° 25' S.

Thu. 27. Still a gale with violent squalls at frequent intervals.

Fri. 28. Blowing hard till 3 P.M. when begins to abate, and by 11 had all sail on steering S.S.E.

Sat. 29. Calm about all day. Gammed all day with the Eliza Adams.

SUN. 30. Fine weather with moderate breeze, from N.E. Steering S.S.W. today. Rose a whale at 4 P.M which seemed to be a Sperm, but turned out to be a humpback.

December, 1884.

Mon. 1. Splendid weather, with gentle breeze. Scrubbed ship both watches. Took in sail at dark.

Tues. 2. Pleasant weather. Saw white water several times and at 8 P.M. rose fukes. Lowered soon after and L.B. went on, and about the prettiest chance which C.O.T ever had was missed. Darted both irons over. Came aboard, but the usual lecture on such occasions was omitted. Took in sail at dark.

Wed. 3. Moderate breeze and cloudy. Rose sperm whales at 9 a.m. and lowered. L.B. went on and got fast. Got alongside at 10.30 a.m. and commenced to cut in at noon. 300 Bbls. Took in the head by dark and bailed the case. Started to try out.

Thu. 4. Again cloudy. Work nothing in till noon. Trying out all day. Stowed down in P.M. Took in sail and put "Blind Jack" at the wheel. Broke out beef.

Fri. 5. Wind and weather fair. Finished trying out at 6 P.M. and continued stowing down all night.

December, 1884.

Sat. 6. Cloudy with light breeze from N.E. Finished stowing down at 2 a.m. Employed cleaning up. Scrubbed deck at 4 P.M.

SUN. 7. Pleasant overhead but blowing a gale. Under short canvass.

Mon. 8. Strong breeze with pleasant sky. Work repairing old sails.

Tues. 9. Warm and pleasant, wind from N. Raised Sperm whales at 6 a.m. and at 7 lowered, chasing all day, but without success. Took in sail at 8.30 P.M.

Wed. 10. Again fine. Lowered for a Sperm whale at 4-30 P.M. But did not get him. Took in sail.

Thu. 11. Commences to breeze up from S.W. at 2 a.m. and by 8 a.m. under short sail, blowing very hard. Spoke bark Pelee at dark.

Fri. 12. Breeze fresh and pleasant sky. Work making sweat.

Sat. 13. Fine weather till 9 P.M. when blows fresh. Work breaking out, making sweat, and hatching sail.

December, 1854.

UN. Moderate breeze, and pleasant.
14 Steering S. by W, on an easy bowline.

Mon. Again warm and pleasant. Work
15. repairing sail, and making sennet. Idle work in the rigging.

Tues Blowing hard today and foggy.
16. Work making sennet and broke out water. Saw white water at night.

Wed. Pleasant with moderate breeze. Bore
17. sail in P. M. which was the bark Kathleen, from home. Gammed.

Thu. Fine weather, gentle breeze. Rouse a
18. large right whale at 9 A.M. and lowered. The B.B. struck about 11, and the whale sounded & wildly taking all the line, but we came up the L.B. and W.B. in irons, and soon the B.B. picked up her line, and the S.B. also struck. It
15 was only after a long struggle
P.M. that he was killed; took nine bombs. Got alongside at 3 P.M. got up tackles and took in the head by dark. Boat overwatches.

Fri. Good weather. Turned to at daylight
19 cutting in and by noon finished. Hoisted away the head. Started trying

December, 1854.

Sat. 20. Very pleasant with light breeze. Work trying out and stowing down. Run oil in the tanks at 4 P.M. Took in sail.

S.T N. 21. Warm and pleasant with gentle S.W. breeze. Finished trying out at 2 A.M. and at 7 P.M. finished stowing down.

Sun. 22. Fine weather with light breeze. Filled the pots and boiled the fluke chains, using the water to scrub deck.

Mon. 23. Pleasant again and gentle breeze. Work making sinnet and serving the Topmast rigging forward. Took in sail at dark. Saw a sail.

Wed. 24. Breezes up at 9 A.M. and by 1 P.M. blows a strong breeze from S.W. Gammed bark Stafford at 3 P.M. Under short sail. Saw a spout.

Thu. 25. Gale of wind this 24 hours, but quite pleasant. Carried away lower mainstopsail at 2.30 A.M. Broke out and sent the old one again.

December, 1884.

Fri. Gale abating, though blowing
26. strong at 11 P.m. Work making
sunnet. Broke out rice.

Sat. Blowing hard this 24 hours. Rose
27. sperm whales at 9 a.m and set
to lowered. The B.B. went on and
fastened, then the W.B. and
they got stove. Picked up the
boat and crew, then the whale
40 at 3 P.m. Got up cutting gear
bbls. but blowing too hard to cut
easily so set boat crew watches.

SUN. Strong breeze but pleasant. Turned
28. to at 7 a.m to cut and by 3 P.m.
finished. Started the try works.

Mon. Again strong breeze though quite
29. pleasant. Work trying out.
Hold gang busy pumping
water. Finished trying at 10 P.m.

Tues. Not so much wind today, and
30. cloudy. Stowed down all day.
Took in sail at dark.

Wed. Pleasant with moderate breeze.
31. Sent down cutting gear and
cleaned up around try works.
Scrubbed deck at 4 P.M. and
at 7-30 took in sail.

January, 1883.

Thu. 1. Cloudy and fresh breeze from N.E. misty at times. Had a holiday, and the old man gave all hands a shilling each. Took in sail at 7-30.

Fri. 2. Pleasant and moderate breeze since 4 A.M. Employed securing sail and making sennet. Took in sail at dark.

Sat. 3. This day pleasant but strong breeze, increasing toward night Handed both lower topsails at 7 P.M. Scrubbed deck.

SUN. 4. Blowing hard from S.W. this 24 hours. Rose a large sperm whale at 6 P.M. and lowered, the S.B. getting on, but the sea being heavy could not hold on, and at 8 ent. Took in sail when returned.

Mon. 5. Rainy and strong breeze today, clearing about 4 P.M.

Tues. 6. This day milder, but had several heavy showers. Gammed bark A. R. Tucker, and got two coils tow line. Took in sail at 7 P.M.

January, 1885.

Wed. 7. Strong breeze, but pleasant. Steering S.S.E. with wind at N.W. Carried away the jib sheets, which split the jib. Sent it in, bending another new one.

Thu. 8. Begins moderate but by noon breezes up, and at 4 P.M. had her under lower topsails. 8 A.M repaired jib and bent it.

Fri. 9. Blowing a gale this 24 hours. Carried away fore topmast staysail at 3 A.M. Broke out and bent a new one.

Sat. 10. Strong breeze from eastward, with fog. Steering S.W. by W. Work on the quarter deck making sennet and picking oakum. Scrubbed deck. Hove to at 11 P.M.

VIN. 11. Strong breeze, increasing to a gale at sunset. Made things secure and set boat crew watches.

Mon. 12. Very cold, cloudy and unpleasant. Strong breeze from S.W.

Tues. 13. Still cold but wind abating. By 11 P.M. had all sail set steering S.E. Saw three sails to-day.

January, 1885.

Wed. 14. Still calm's, with strong breeze at S.W. Steering S.E. Squaring sail hard. Lat. 44° 38' S. Lon. about 20° 30' E.

Thu. 15. Blowing a gale, but still keeping to S.E. Wind picking ahead.

Fri. 16. Blowing harder with squalls of rain. Lat. 45° 09' S. At 2 P.M. hove to on port tack, taking in both topsails. Heading about W. N. W.

Sat. 17. Gale increasing, so at 9 A.M. called all hands and got the craft out of the boats, and set courses, topsails and jib, and put a boatsteerer at the wheel, and kept off to N. N. E. Wind W. S. W.

SUN. 18. Moderates a little by 4 A.M. Set main top gallant sail, and rigged out the weather stun-sail booms forward and set fore topmast studding sail, also fore top gallant sail at noon. Boatsteerers at wheel, four hours each. Hove the log at 12 M. and found we were making nearly 14 knots.

January, 1885.

Mon. 19. Pleasant but strong breeze at S.W. steering N.E. by N. Hove the log at noon; marking 10 ℔.

Tues. 20. Wind fell away to calm at ½ A.M. and hauled round slowly to N.E. catching us aback. Got around on starboard tack without accident, and keeping N.W. till 4 P.M. came to a bowline, and took in light sail. Lat. 37° 25' S.

Wed. 21. Fine weather once more, and moderate breeze. Broke out provisions in A.M. and worked in the rigging in P.M. At 4 P.M scrubbed deck.

Thu. 22. Still fine weather and gentle S.W. breeze. Work repairing sail and squaring rattlins. Took in sail at 7.30 P.M.

Fri. 23. Pleasant in A.M. but rainy in P.M. Wind hauled to N.E. about daylight. Rose the bark Berthe at 2.30 P.M. and gammed at night till 11 o'clock then set sail and stood W.S.W. Employed today making sunnet, and picking oakum.

January, 1885.

Sat. 24. Pleasant today with moderate easterly wind. Work repairing sails and in the rigging. At 4 P.m. scrubbed deck. Took in sail at dark. Saw a sail.

Sun. 25. Wind hauled to S.W. and blowing fresh, but pleasant weather. Spammed the Bertha. Lat. 38° 08 S.

Mon. 26. Very fine weather today with gentle breeze from S.W. On the port tack. Got several casks water on lee side and swung stages over port side and scraped the grass from the side, and scrubbed the copper for greasy luck the old man said.

Tues. 27. Same wind and weather as yesterday. Tacked at 7 a.m. and got the ship careened over and then gave the starboard side a scrubbing, also rubbed up the copper. In the P.m. had all hands at work, one watch over the side and the other scrubbing the bulwarks. At 4 P.m. gave the decks a good scrubbing. Took in sail at dark, but at 11 set everything again.

January, 1883.

Wed. 28. Continues pleasant with fresh breeze from S.W. Under easy sail, on port tack. Work in the rigging.

Thu. 29. Very warm and pleasant with little wind. Work repairing the windlass, scraping the iron work and painting when in good shape. Scrubbed deck in P.M. Just as we finished saw a large sperm whale two miles to windward, so lowered and pulled up. The mate gallied the whale just as the N.W. was going on. About 7 the S.B. got fast, and soon had him fin out. Got alongside at 11, and had to tow to the ship. Set boat even with the

110 Bbls.

Fri. 30. Fine weather with gentle breeze. Set up tackles during the night and at 4 A.M. commenced to cut. Finished the whole business by 3 P.M. and got washed down and try works started at 6.30. Under easy sail.

Sat. 31. Again very fine. All hands working on deck and running case in A.M., and the hold gang busy pumping. Run oil in the tank in P.M. Lat. 37° 3' S.

February, 1885.

Sun. 1. Cooler today, with fog in P.M. Work stowing down and trying out. Made sail at 1 P.M. and steered N.W. by W.

Mon. 2. Very pleasant again with light breeze. Finished trying out at 10 P.M. Stowed down all day. Calm all P.M. but heavy swell.

Tues. 3. Pleasant weather, with fresh breeze through the day. Stowing down all day. Cleared up the deck and sent the cutting gear down. Took in sail at dark.

Wed. 4. Again warm and pleasant with gentle breeze from S.S.W. Finished stowing down at 2 P.M. and at 4 scrubbed deck.

Thu. 5. Fine weather in A.M. until 10, then wind hauled to N.E. and rain and fog followed. Set sail and steered S.W. by S.

Fri. 6. Moderate breeze, and cloudy. Work in the rigging. Steering S.S.W till noon, then baffled to.

Sat. Rain today and strong breeze. Broke out water. Scrubbed deck.

February, 1885.

SUN. 8. Wind strong in morning, but decreases till 2 o'clock in a calm. On starboard tack heading N.W.

Mon. 9. This day fresh breze from S.W. and pleasant weather. Broke out the after hatch and stowed back to make room for oil. Took in sail.

Tues. 10. Squally weather today and a very strong breze. Crew employed picking oakum. Took in sail.

Wed. 11. Cloudy with strong breze till 2 P.M. when moderates. Work picking oakum and making sword mats. At 5 o'c P.M. picked up a five barrel cask with several fathoms towline attached.

Thu. 12. Fine weather with gentle breze. Broke out the main hold and stopped a leak in an oil cask.

Fri. 13. This day gentle breze and cloudy. Employed overhauling lifts and foot ropes. Took in sail at dark.

Sat. 14. Strong breze and pleasant. Steering N.W. Work overhauling blocks, lifts, foot ropes and at ½ P. M. scrubbed deck. Shortened sail

February, 1885.

SUN. 13. Fine weather, gentle breeze from S.E. Steering N.N.W. Lat 38° 04' S.

Mon. 16. Again fine with fresh breeze. Steering N.N.E. Employed in the rigging. Saw a grampus in P.M.

Tues. 17. Light breeze in A.M., strong in P.M. with rain. Took in main sail, and reefing sentlemen. Steering W. by S. Scrubbed deck.

Wed. 18. Pleasant in A.M. but breezes up in P.M. and by dark were under short canvass. Employed making sennet. Saw one sail.

Thur. 19. Pleasant with strong breeze. Steering N.W. in A.M. N.E. in P.M. Worked squaring ratlines.

Fri. 20. Pleasant with fresh breeze. Steering N.N.W all day, under easy sail. Work overhauling blocks. Sent down gaft topsail and worked on that in P.M.

Sat. 21. Today fine with moderate breeze from S.E. Broke out the bone and scraped it in A.M. Scrubbed deck in P.M. and at dark took in sail, coming to on port tack.

February, 1885.

STN. Fine weather again and light
22. breeze. Beat the Galt topsail in
the A.m. At 4 P.m all hands were
turned to drawing water, and
the bone was put to soak over
night. Took in sail.

2 Mon. Continues fair with gentle breeze.
23. Employed scrubbing bone, till
6 P.m. Breezing up all P.m.

Tues. Pleasant but strong breeze. Got up
24. the bone to dry in A.m. and in
P.m. burned it. Took in sail.

Wed. Fair with strong S.W. trade wind.
25. Employed scrubbing ship all day.
Standing to eastward. Took in sail.

Thu. Wind and weather same. Crowed
26. for black fish at 11-1- A.m. and
soon the boats all struck. The
L.B got three. Got them along-
side and on board by 8 P.m.
and turned to cutting up. getting
deck clear at dark. Took in sail.

Fri. Remains same. Mounted the Rubber
27. and tried it out. Took in sail.

Sat. Again pleasant. Broke out a fluke
28. chain and made it into Stuff.

March, 1885.

SUN. 1. This month begins with gentle breeze and warm pleasant weather. On the port tack. Employed getting potatoes down from under the boats on the house and picking them over. Took in sail.

Mon. 2. Cloudy with moderate breeze. Work breaking out the old suit of sails. Steering W.N.W. ½ W. Took in sail at dark and stilled to. Lat 21°6' S.

Tues. 3. Very warm and pleasant with gentle breeze. Steering N.W. under easy sail. Washed down the main mast and under the house.

Wed. 4. Remains the same; little more wind in P.M. Steering N. by E. Broke out provisions and dunnage.

Thur. 5. Fine warm weather; light breeze. Found a leak in a cask so worked all day breaking out and coopering it. Took in sail at dark.

Fri. 6. Cloudy with fresh breeze. Work scrubbing out the round house and the fore mast. Took in sail.

Sat. 7. Cloudy with gentle breeze. Squalls all round all day. Set sail.

March, 1885.

SUN. 8. Cloudy in a.m. with some rain, but pleasant in p.m. Steering in a.m. N. W. by W. in p.m. S. W. by W.

Mon. 9. Clear and pleasant, light breeze. Broke out in lower decks all day, cleaning up gurry. Steering N. W.

Tues. 10. Again warm and pleasant with gentle S. E. breezes. Washed decks in a.m. and in p.m. sent up mizzen, jib, flying jib and spanker. Took in sail. Lat 18° 33' S.

Wed. 11. Continues warm and delightful weather and good whole sail breeze. Found another leaking oil cask so broke out all a.m. At 3 p.m. saw a school of sperm whales and lowered. After working to windward and down the S. E. got fast, but the whale run and did not get near enough to lance with effect. Shot five bombs. Then another whale got foul in the line and hauled it out. Returned to the ship at dark, and the old man blamed the fourth mate for not killing the whale, telling him to pack up and leave soon as we get into St. Helena.

March, 1885.

Thu. 12. Continues pleasant with light breze. Scraped down today and broke out water. Steering N.W. by N. the last 24 hours.

Fri. 13. Fine weather, with an occasional squall. Land was raised at 4-30 P.M. bearing N.N.W. distant 54 miles. Rain for it all night. Employed scrubbing and putting things in shape for going into port. Saw several sails.

Sat. 14. Fine weather with usual gentle breze. Turned to all hands at 4 A.M. and got up cables and rigged the anchors, and at 7-30 dropped anchor in St. Helena Harbor in 15 F. After furling sails got stages over the side and scrubbed ship, and rubbed up the copper again (for luck?) Got up tackles and at 4 P.M. Starboard watch went ashore.

SUN. 15. Usual fine weather as is met in St. Helena. After the starboard watch came on board the port watch went ashore. The old man made a free speech and discharged the fourth mate as too useless for him.

March, 1885.

Mon. 16. This day employed in getting a spare boat off the lower foot shifts use, then rigged boson chairs for tarring down, which completed the remainder of the day. Starb'd watch went ashore at night.

Tues. 17. Work tarring down, finishing at night. Boats crews painting ship. Port watch ashore at night.

Wed. 18. Painting outside of ship today. Broke out provisions and then scrubbed deck. Watch ashore.

Thu. 19. Finished painting at noon and in P.M. got out the kedge and bow anchor, warping to a position directly off the town, where it was intended. Anchored in 10 F.; then got the rigging tried up and prepared for painting the inside of the ship.

Fri. 20. Work painting today, completed at 5 P.M. Watch went ashore as usual. Fine pleasant and very warm.

Sat 21. Painted the davits and boats today, then scrubbed deck. Watch ashore at 4 P.M.

March, 1885.

SUN. Starboard watch ashore today.
22. Again in the P.M.

Mon. Painted under the house today
23 also broke out the two 12 barrel casks of water aft the blubber room. Watch ashore at night.

Tues. Today slung the sails and com-
24. menced to paint the yards, cross trees, mast heads and lower masts. Watch ashore at night.

Wed. Finished painting the spars today
25. and took the Kathleen's oil on deck. Watch went ashore as usual at night.

Thu. Strong blows struck at 2 a.m. and
26. the anchor watch being asleep dragged about 60 ft. and fouled the Mermaid's anchor. All hands turned to at 7 a.m. to heave up but found to be foul of something besides the Mermaid's anchor. Slacked out again and run a line to the ship Niger and hauled away from the Mermaid and then dropped the other anchor. No damage resulted in fouling the other ships.

March, 1885.

Fri. 27. This day tried again to get our anchor with help from the shore, but found to be of no avail. Sent the sails and got the running rigging clear.

Sat. 28. Today employed preparing for stores, breaking out in the after hold. Took out several casks of oil. Broke out water, and at 3 P.M. scrubbed deck. Watch went ashore with 4 shillings each as a present for extra work. Boats crews did not get a cent for a punishment for sleeping while on watch.

SUN. 29. All hands on a run ashore today. Ship keepers employed from shore.

Mon. 30. Schooner Lottie Beard arrived today, so turned to and broke out oil in A.M. filling the deck. Took a lighter load of provision just as the watch were getting ready to go ashore. Turned to and hoisted them aboard

Tues. 31. Employed taking provisions and stowing them down. Had to scrape the Kathleen's oil. Watch ashore as usual at night.

April, 1885.

Wed. 1. This day taking provisions and stowing them down in after hold. Watch ashore at night.

Thu. 2. Work same today as yesterday. Coopered the Kathleens oil again today. Watch went ashore.

Fri. 3. Again work all day taking in and stowing down provisions. Watch went ashore as usual.

Sat. 4. Discharged the Kathleen's oil, and took a load of provisions, and stowed them down. Scrubbed decks, and sent the watch ashore.

SUN. 5. Starboard watch ashore today on liberty. Pleasant and cool.

Mon. 6. Work breaking out and sending oil aboard the schooner. Coopers setting up shooks. Watch ashore.

Tues. 7. Breaking out and discharging oil. Stowed back two casks, and filled with salt water. Watch went ashore at 6 P.M.

Wed. 8. Breaking out and discharging oil all day. Coopers busy setting up shooks. Watch went ashore.

April, 1885.

Thu. 9. Finished breaking out oil at noon, and discharged the last cask by 3 P.M. Stowed down and filled several casks. Watch went ashore.

Fri. 10. Stowing and filling the ground tier. Watch went ashore as usual.

Sat. 11 Labor same today as yesterday. Scrubbed deck at 4 P.M. and watch got ready and went ashore.

SUN. 12. Port watch given liberty today. Starboard watch ashore at 2 P.M.

Mon. 13. Employed selling up shooks, stowing down, and running salt water. Watch ashore as usual at night.

Tues. 14. Commenced stowing riding tier today, and at P.M. took 200 bbls. fresh water. Watch ashore.

Wed. 15. Stowed off the after hold for sea, and stowed away shooks in fore hold. Watch ashore.

Thu. 16. Port watch went on liberty today. On board were employed selling up shooks, stowing down and general clearing up. Got a load of rocks from shore for ballast.

April, 1885.

Fri. 17 Starboard watch on liberty today. Stowed down the last cask and took 200 barrels water, and got up the cutting tackles for getting out the anchor.

Sat. 18. Turned to at 7 a.m. and hove short, then got the cable around in the waist and hooked on with the cutting tackle. Rain interfered with with the work and did not get the anchor up until 3- P.M. Found it foul with a hedge and three cables. Got them clear by dark, and then the port watch went ashore for the last time.

SUN. 19. Port watch forgot to come off, so starboard watch had to remain on board. Pleasant weather.

Mon. 20. Took in the boat and put her on the house, and made ready for sea. Took several bushels potatoes and other garden truck, then hove short. Hove up and sailed under the second mate at 5-. The old man offered the berth of fourth mate to the writer in an indirect way which caused the writer to "sass" back, therefore did not get promoted.

April 1885.

Tues. 21. Stood off and on all night and at noon the old man and for the mate, Mr. Frank Lester came off. Sailed at 2 P.M. on the starboard tack. The third mate was ordered to take all night in and the writer to head the watch.

Wed. 22. Fine weather and moderate S.E. wind. Stood in to the rock about 4 P.M. and sent letters ashore, then sailed. Ran the cables down and cated the anchors, also cleared away the vegetables.

Thu. 23. Squally with strong breeze. Work setting up the head gear and fore shrouds. Saw several sails. Standing to eastward on starboard tack. Washed deck.

Fri. 24. This day pleasant with gentle S.E. breeze. Work setting up rigging forward. At 4 P.M. knocked off and cleared up decks and attended an auction sale of Antone's and Calisto's duds.

Sat. 25. Today fine with light breeze. Set up rigging at the main today. At 3 P.M. gammed the Morning Star. Still standing to eastward.

April, 1885.

SUN. 26. Fine warm weather, gentle S.E. breeze. Heavy swell from S.W. Steering S.W. by W.

Mon. 27. Again fine with fresh breeze. Set up rigging at mizzen, and at 4 P.M. scrubbed deck. Took in sail at night. Saw one light, a steamers mast-head light; passed near us.

Tues. 28. This day strong breeze but still holds pleasant. Employed breaking out old cordage and preparing for spun yarn. Steering S.W. Took in sail at dark.

Wed. 29. Strong breeze this 24 hours with heavy sea running. Carried away the lanyards in the lower bob stay at 9 A.M. so broke out new cordage and rove off new lanyards in both. Steering S.W.

Thu. 30. This day fine weather with gentle breeze. Slacked up the head stays and set up the bob stays, then set up on the other stays. Saw three sails. Scrubbed deck and at dark shortened sail.

May, 1885.

Fri. 1. Strong breze and pleasant. Hove to making sham yard. Sick at breakfast and scrubbed deck. Steering S.W. with wind at S.W. Took in sail.

Sat. 2. This day fine with moderate S.W. wind. Steering S.W. by S. by Chronometer and sail and steering S. by W. the wind becoming S.E. Employed making sham yard and scrubbed deck at 4 P.M.

Sun. 3. Wind and weather clear and fine. Steering S. till dark when took in sail and steered W. by S.

Mon. 4. Again the same. Employed in spinning yarn. Steering S.W.S. Took in sail at dark.

Tues. 5. This day strong breze and heavy sea, and cloudy. Hove to making sham yarn. Scrubbed deck, and took in sail. Wore W.S.W. with wind at S.S.W. so stood along on port tack.

Wed. 6. Still strong breze blowing and cloudy. Finished making sham yard. Steering close by the wind on port tack. Lat. 31°39'S.

May. 1853.

Thur. 7. Dull, misty weather this 24 hours. Broke out all day for a new suit of sails. Rose a fair breeze in the S.W. Steering S. southward.

Fri. 8 Cloudy, with gentle breeze from S.W., increasing at sunset. Work on the new sails stretching and putting in rovings. Took in sail at night.

Sat. 9. Pleasant with gentle breeze. Steering S.S.W., wind N.W. Bent new head sails, mainsail and spanker. Scrubbed clean at 4 P.M. and at dark took in sail, coming to the wind on starboard tack.

Sun. 10. This day pleasant till noon when a gale springs up from S.W. which caused us to take in sail and heave to at 7 P.M.

Mon. 11. Fair weather, modest breeze. Saw to a.m. Cooler. Steering S. by W. with wind at N.W. Work making out pennants and making sennet.

Tues. 12. Foggy a.m. but clears off after midday, and then the wind commenced to blow strong from S.W. Handed lower fore topsail at 5 P.M. Standing to S.S.E.

May, 1885.

Wed. 13 Blowing a gale this 24 hours, begins to abate at 11 P.M. so set fore topsail and foresail. Lat. 23° 17' S.

Thu. 14. Strong breze and pleasant weather. Broke out water in P.M. Hove picking oakum and making sennit. Steering S. by W. with wind W.

Fri. 15. Moderate breze and pleasant weather. Hove making sennit. Took in sail at dark, which was 5-30.

Sat. 16. Commences to blow in squalls at 1 A.M. and continues a strong breze all day. Reefed deck. Saw a sail.

SUN. 17. Gale of wind this 24 hours. Handed both topsails at noon. Got the boats on the right part and made every thing snug. Saw a sail off the bow.

Mon. 18. Gale begins to abate at daylight, at 6-30 so set sail as fast as convenient to avoid. Steering N. N. W. Wind this day cold. Lat. 26° 08' S.

Tues. 19. Gentle breze this 24 hours. Bent the heavy topsails, steering away the old ones. Hove making a new spanker sail. Steered N. N. W. till 6 A.M. when came to the wind, reefed deck-

May, 1851.

Wed. 20. Strong breze, increasing after sunset. Hove to under easy sail all day hauling S. by E. on starboard tack. Work making sinnit.

Thu. 21. Blowing a gale all day. Left off N. N. E. at noon. Put a reef in each to the wheel, and set sail.

Fri. 22. Still blowing hard, moderating at noon, and at 10 P.M. calm. Steering N. by E. Work picking oakum.

Sat. 23. This day cloudy and rainy, with fresh breze from N. E. Working to windward all day and hove to at dark. Scrubed deck at 4 P.M. About 11 P.M. wind hauled to the S. W. again. Saw a light at 11 30

Sun. 24. Calm at 8 A.M. and gentle breeze at 1 P.M. Steering N. N. W.

Mon. 25. Fine weather, warm, and a light S. W. wind. Rose sperm whales at 1 30 P.M. and gave chase in pursuit. The L. B. struck about 3, and at five were alongside the ship. Got up cutting gear and hooked on, then set the waters. Saw two sails during the day, evidently merchantmen.

70 Bbls.

May, 1885.

Tues. Pleasant in a.m. cloudy with rain
26. in P.m. turned to at 6a.m. to eat,
and at 7 P.M. finished everything
even to washing down decks. Got
the topsails sat'd and set the
watches. Saw a whale off in d'stance.

Wed. Pleasant weather with light airs.
27. Had both watches at work getting
sink and case and everything
under for separators to stow in.
At 2 P.M. saw spout ahead and
immediately covered, furling
to windward and setting sail.
28 The S.B. got fast, then the L.B. got
Thurs. fast to a very large whale and
the first cared given him turned
him up. Got alongside by three
and took in sail, starting the casks.

Fri. Fine weather. Turned to at 6 a.m. and
29. cut all day on the big whale. Staying
out, and stowing down at the same
time. Had fine sunset tonight.

Sat. Remain fine weather with gentle
30. breeze. Hooked on the case at 8 a.m.
and it took till 2 P.M. to have it
in, all hands going to the wind-
ward, the old man forehead on the
forecastle singing out commands. "Bowse".
Finished at dark. Sunset very fine.

Diary concluded, June, 1885.

Sat. 30. Calm and variable with fresh S.W. rain. Turned out at 6 a.m. and cut in the small whale in two hours. Work cutting up junk, running oil, and stowing down. All hands at work.

SUN. 31. Fine weather and fresh breeze. Set all sail and commenced to beat to windward, S.W. Trying out and stowing down all the 24 hours. A steamship crossed our stern at 11 P.M. and spoke us, wanting to know if we were on fire.

Mon. 1. Still remains good weather. Work trying out all day, finishing at 10-30 P.M. Stowing down, and working the ship to the windward, employing all hands.

Tues. 2. Windy today with moderate S.E. more. Finished stowing down at 4 P.M. the big whale turning out 135 barrels. Work on deck cleaning and scrubbing, oiling the pump chains. Sick in sail.

Wed. 3. Very fine and pleasant day. Broke out provisions on lower deck. Under easy sail all day.

June, 1885.

Thu. 4. Strong breze in A.M. decreasing in P.M. Set sail and stood E. by S. Took in sail, after sounding deck.

Fri. 5. Fine weather and gentle breze. Employed at work in the rigging. At 10 P.M. while the steward watch had the deck saw a sail right ahead. Tried to tack ship but forgot to ease off the head sheets, and the breze being light she got aback. Headed her main yard and that got the ship in stays. By this time the stranger was near enough to hail, when we heard these words, - What in 'ell you doing to close you bloody fools? You just crossed us and that was all. It being foggy at the time the fourth mate used that as an excuse for his ignorance in working ship.

Sat. 6. Gentle breze with cloudy foggy and disagreeable weather. Sprung a leak heavily, causing us to pump twice a day. Work in the rigging, scrubbed deck &c.

SUN. 7. Cloudy and at times strong breze. Steering W. by W. with wind S.E. Set out several bushels of potatoes and picked them over.

June. 1885.

Mon. 8. Strong breze and cloudy. Broke out water and provisions. Made sail at P.M. and picked oakum.

Tues. 9. Strong breze, but more pleasant. Steering N.W. by N. Still making sail. Took in sail.

Wed. 10. Fine weather and gentle breze. Broke out Trying to find the leak as it got so bad we had run in at the rate of 70 strokes an hour. Found it directly abreast the main hatch about six feet below water line. just as the leak was stopped and got stowed back spare whales was missed, so found; the L. B. went on soon after and struck. After he was set to spouting good Blood the line parted, but the B. B. picked up the end and saved the whale. Got alongside at 5 P.M.

5 Sat. Flensed, and set boat ewerytens. The L. B. taking first watch to get the cutting tackle up. Secured all about 8 P.M. which was hurrying night down on us, so had to set all sail in a hurry to get clear. Called all hands to help, which caused a grumbling, but the old man got on his muscle and put an end to "mutiny."

June, 1851.

Thu. Fine weather with gentle breeze.
11. Turned to at 6 A.M. to cut, and by 7 A.M. finished. Started the try works, and cut in the fish, when at 7 P.M. saw whales and drove west this route, the S.B. remaining behind. The W.B. went after and struck, but got away. The L.B. then in irons and got the whale, while the B.B. picked up the saw and wash. Got on board and picked the whale up dead. Trying out all day. Saw a sail.

Fri. Blowing off and on daylight and by
12. mast saw a sail, but disappeared. Turned to at daylight to cut in and took in the fish and cut in 11 A.M. but blowing to hard to cut in P.M. Trying out all day.

Sat. Blowing a gale this 24 hours, and at
13. times impossible. Turned to at 10 A.M. and cut in, finishing about 5 P.M. Hoisted Jack and saw sail in to the South. Trying out all day and night.

SUN. Fine weather with strong breeze from
14. S.W. Took the blubber out of the hole in it and secured hatch. Hoisted Trying out at 6 P.M. Steering all day. Saw two sails.

June, 1885.

Mon. 15. Fine weather today with strong breeze from S.W. Standing down all day. At sail at night steering S.E.

Tues. 16. Gentle breeze and very pleasant. Finished steering down at 10 a.m. At P.M. manoeuvred and set sail on port tack steering S.E.

Wed. 17. Fine weather and gentle breeze. Sent down cutting bucks and overhauled. Washed ship in P.M. getting it all tidy and in readiness. Steering E.S.E. taking in sail at dark. Saw a light at 12 o'clock.

Thu. 18. Again fine weather and light breeze. Knocked off painting in a.m. and in P.M. scrubbed deck.

Fri. 19. Remains fine with light airs and calm. Steering S.W. with wind N.N.E. Down sail had fine breeze in a.m., and in P.M. worked on the old one. Saw a sail.

Sat. 20. Still very fine weather, and just enough to give the ship steerage way. Work repairing the foresail in a.m. and in the P.M. shifted ship's berths. Prayers read at 8 o'clock.

June, 1885.

Sun. 21. Continues fine with light breezes from N. increasing at 11 A.M. and steering S.S.W.

Mon. 22. Remains fine weather and steering same. Finished the foresail and bent it, and sent down after foretopsail. Struck mizzen.

Tues. 23. Begins fair with gentle breeze, but after noon hazy, the wind going around to S.W. Refitted the topsail and bent it at 2 P.M.

Wed. 24. Stormy and cold, gloomy weather. Work on the fore topsail sail which was sent down at the A.M. described above.

Thu. 25. Fine weather today, pleasant and warm, with moderate breeze from N. Finished work on the fore topgallant sail and bent it, sent down the mizzen topmast & topsail and removed spars. Steered N.E. from 4 A.M. till 7 P.M. then took in sail.

Fri. 26. Fine weather with fresh breeze from S.E. Finished and bent the staysail, then overhauled some of the rigging. Performed divine service at 11 A.M. Struck mizzen at noon.

June, 1885.

Sat. 27. Clouds and strong breze today. Reeled both topsails in the A.M. Scrubbed deck and took in sail.

SUN. 28. Stiff S.E. trade winds and a heavy sea. Cloudy and foggy. Carrying sail hard to get to windward. Rose a large Sperm whale at 1.30 P.M. and lowered the L.B. and W.B. but as the whale was working to the windward fast, abandoned the chase and returned at 3. Shook out the reefs in the topsails at 4 P.M. and set the main topgallant sail, hauling to windward

Mon. 29. Strong breze from S.E. and quite pleasant. Bike out cordage and iron of new boat falls all around. Carried away the weather topsail brace in P.M. Rove off new on both sides. Still carrying sail hard to get to windward.

Tues. 30. Good weather with moderating breze. Had all sail set by 11 A.M. Employed calking the deck around the windlass and bitts, and around the skylight. Bike out harness in P.M. Shortened sail at dark.

July, 1885.

ui. This day clear with strong
i. breeze. On the port tack the 24
hours hauling S.S.W. Work in the
forehold overhauling spun yarns,
and rigging pump. Took in sail

u. Wind gradually decreasing, and
. at 9 P.M. fell calm. Till Sunday
ng to S.S.W. Work cracking up and
rigging pump yarns. Serve off
deck lines, took in sail. Saw
several sails, all merchantmen.

ri. Wind springing up at S.E. at 2 30
3. a.m. steering S.E. Work making up
spun yarns. Took in sail.

at. Fine pleasant weather, wind S.
4. and moderate. Steering E.S.E.
Making spun yarn today. At
4 P.m. sounded. Left At 5 30 a
small stack, but did no damage.
Took in sail. Sounded daily.

IN. This day foggy, and at times
. rain. Wind light and baf
fling. Steering S.E. by E.

ton. Calm today and disagreeable
6. weather. Work making spun
yarn. Several sails in sight
all day. Sounded daily.

July, 1855.

Thurs. 5. Today better weather with a chum-
gabe wind. Steering E. by S. Work
making spun-yarn. Took in the
light sails at dark.

Fri. 6. Braces up at 5 a.m. and at noon
Having a strong breeze from S.W.
steering S.E. carrying sail hard.
Broke out water. Saw several
sails, a steamship and a humpback. scrubbed deck.

Sat. 7. Strong breeze from S.W. steering S.E.
till 5 P.M. when made the land
bearing E.S.E. distant 10 miles.
Got a cast of the dipsea lead,
and found 47 fathoms. Tacked
and stood to N.W. on port
tack. Saw several humpbacks.
scrubbed deck in the morning
and at 4 P.M.

Sun. 8. Pleasant during the day but fog
at night. Standing to N.N.W.
Broke out provisions, and aired
sails. Scrubbed deck twice.

Mon. 9. Fine weather, gentle breeze. Work
in the rigging. Took in sail
after scrubbing deck. Steered
W. all day, with the wind
at S. by W. or S. saw a sail.

July, 1885.

UN. Still fine weather with the wind
12 gentle and from S.E. Steered
N. N.W. Pitched off deck in a.m.

Mon. This day fine with fresh S.E. wind.
13. Broke out water, and restowed
the fore hold in seven decks.
Rose a spermwhale on P.m. but
as he was unlikely to windward
lost sight of him. Saw one
sail steering West.

ues. Strong breeze in a.m. moderat-
14. ing to gentle in P.m. Made
new stays to suit Clerk today.
Scrubbed deck and took in sail.

Wed. Cloudy and gentle breeze. Rose a
15. sperm whale at 11 A.m. and im-
mediately lowered. Lost sight of
that one and were returning, but
rose three more, so started after
them. The mate struck and in
loading the boat gave it a
bad shape. Picked him up by
the midship thwart, but the
boatsteerer killed the whale. Got
alongside at 9 P.m. Pitched over
crates and the rest tomorrow.
The N.B. missed twice so
broke muffle fetching Glass
in his place. Saw two sail.

July, 1885.

Mon. 3. Fine weather with fresh breeze from N.E. Commenced the day sailorizing and sail making. At 9.30 A.M. a school of small sperm whales were raised almost under the bow. In ten minutes the boats were down pulling to windward when sail was set. The second mate went on our mussel, then he struck a large cow which run to windward 20 fast a bomb had to be used to bring him to. Got alongside and hoisted in by 2.30 P.M. when all hands turned to and got up gear, cut him in, cut him into horse pieces, boiled some and got every thing ready for boiling. Sent the tackles down and set scratches at 7 P.M.

10 Bbls.

May, 1884.

Tues. 4. Clear and gentle breeze. Started the works at 6-00 A.M. and were nearly finished at 3-00 P.M. as a school of whales were raised to leeward. Lowered, and soon the larboard boat went on and missed, but struck soon after. The third mate took the line and hauled on and struck another, and as it was near night the mate cut, the whale being too small to lay by all night. Got aboard 7 ½ and hoisted the whale and got up the tackles. then set boat crew watches at 9-00 about 10-00 it was found that there was no whale on the chain, so turned out all hands and started a search and found him. Towed back to the ship, and by 2-30 A.M. 6th turned in again.

20 Bbls.

Wed. 5. Turned to 5-30 to cut in, and by 7-30 finished. Cut into horse pieces and started the works with ease. Sent down cutting tackles, and examined up the mast and then overhauled the cutting gear for the big whale, the one more by one the old man wants

May. 1886.

Thu. 6. This day fine with gentle breeze finished trying out at 3-30 A.M. cleaned up the gear and stowed everything away. At 4-00 washed deck and at 5-30 rose whales. Lowered, and soon the mate struck, then the third mate, nearly dark, struck the same whale and by the moonlight on the water "the fourth mate struck. Our two boats got fast and both out, the second mate saving the whale. The fourth mate got his whale alongside by 8-30 P.M. the other at 9-00. Got up tackles, and made everything ready for cutting. Made bomboed several loose whales.

Fri. 7. Cloudy with gentle breeze. Got to work cutting at 7-30 A.M. and by noon finished. Cut up horse pieces, boiled case, sent down tackles and started the works at 4-00 P.M. Took in sail

Thu. 13. Warm and pleasant. Variable wind. Broke out and bent new sails and stowed old ones away. Steering W. by N

Fri. 14. Same wind and weather. Doing some repairs on old sails today. Steering W. by S.

Sat. 15. Calm nearly all day. Lowered for humpbacks at 6.30 A.M. and after pulling and paddling for six hours and not getting within a mile came aboard. Remained there

March, 1886.

SUN. 16. Continues fine and warm. Light breeze all day. Course W.

Mon. 17. This day same weather with light N.E. breeze. Steering W. Sailor work and carpentering going on. Saw several sails.

Tues. 18. Good weather, light breeze, increasing to strong breeze in P.M. Fourth mate trying to do as well as third mate carried away main rail in fore topmast backstay, aft, port side. Took in the topsail got fish tackle on for preventer, and set sail again, about 2-30 A.M. Rove new mainsail during the day.

Wed. 19. Fine weather, fresh breeze. Still cruising, but headed home. Men cleaning and painting.

Thu. 20. Wind and weather pleasant. Painting and scraping today.

Fri. 21. Wind and weather same, from E.N.E. Steering W.W. Secured the anchors and got up port cable.

Sat. 22. Rounded and tarred both cables and anchors today. Washed decks

May, 1886.

SUN. 23. Fine weather, moderate breeze from S.E. Steering N.W. ½ W.

Mon. 24. Cloudy with S.W. wind. Course W. N.W. Scrubbing and painting.

Tues. 25. Same wind, weather and work today. Sails in sight all day.

Wed. 26. Cloudy and calm, some rain in P.M. Scrubbed bulwarks.

Thu. 27. Light baffling winds; cloudy. Work scrubbing and painting.

Fri. 28. Strong breeze from N.E. course N.W. Scraped jib and flying jib booms today. Beef gone.

Sat. 29. Pleasant with strong S.W. wind. Broke out provisions and water, all of which are getting short. Several sails and steamers in sight. Exchanged longitudes with an English bark. Scrubbed deck and took in sail.

SUN. 30 Fine weather, strong S.W. wind. Steering N. by W. Sails in sight.

Mon. 31. Wind and weather same. Painting and scrubbing going on.

June, 1886.

Tues. 1. Rain and fog this 24 hours. Moderate breeze from E.S.E. Cruising, tacked ship every four hours. Several sails in sight and a steamer of whom we asked his longitude, but he paid no attention to us.

Wed. 2. Good weather, strong breeze from S.W. Broke out water and did a little salivizing.

Thu. 3. Changable weather & humid. Cruising, but inclining to N.W. Dashing a little now and then.

Fri. 4. Cloudy with variable wind. Scrubbing and painting, oiling and scraping. Turned around the lay to work.

Sat. 5. Fine weather and gentle breeze from S.W. Close a lightship at 10 30 A.M. 32 sails in sight at one time. Scrubbed deck.

SUN. 6. Pleasant with moderate breeze from S.E. Steering N.N.E.

Mon. 7. Cloudy and foggy today. Light variable wind. Steering N. & E. Nothing going on.

June, 1866.

Tues. 8. Pleasant with light variable winds. Steering N.E. by N.

Wed. 9. Pleasant with gentle S.S.E. wind. Sent up main masts, took in cutting stage, sent down cutting pendants and stowed away all whaling gear. Scrubbed deck.

Thu. 10. Cloudy in A.M. but fine in P.M. with fresh S.W. wind. Boarded by N.Y. Pilot No. 14 at 7 30 A.M. The Howard F. Williams. Set all boat sails for stunsails. Called the mast heads down at noon and took gear from the boats and stowed away for future reference. Rose Block Island, first sight of Yankee Land, at 3 00 P.M.

Fri. 11. Fine pleasant weather and moderate breeze. Took a Pilot from Cuttyhunk at daylight and proceeded up the bay, having to beat the whole distance. Was boarded by John Irving above Patiences Island about 3 00 P.M. where pulled sail, and by 7 30 were fast to the same pier we left.

Closing Remarks.

It is with a feeling akin to regret to leave a good ship after she has carried one safely over many thousand miles of ocean. We are extremely happy to again step ashore on our native land, and thank God we are clear from the discipline and other some work of a ship which has the name of being a "Black Ball Packet." We swear before we set foot on deck that once ashore we don't want to see another mess, the "old ark" for many a day, and if we do not proceed ten steps before we turn around to have a last look at our handsome or ugly home, look at each spar and rope, and everything which catches a sailor's eye. We go on a little further and stop for another look, and the same thing is repeated until we turn the corner and she is out of sight. Tears start in our eyes. Is it the regret of leaving the dear old ship, to which cling so many tender memories, - where we have passed many hours of pleasure, or sorrow and many hours of labor? or is it the thoughts that we are safe home

again and will soon be with our dear ones again? Verily it is both which fills our eyes. Here in that noble ship has the ambitious young man been promoted; he imagines with what pleasure his dear parents and sister will receive the news; he is already ascending the ladder, and at the age of 18 years is further up than many who are doomed never to be anything but a common Jack tar. It is these two he has learned so many testimonies of love, from parents and sister, and of regard from friends. What can compare to the pleasure of being far away from those dear ones and reading the tender and loving letters from a dear mother? Let those who would shrink from the dangers of the ocean, and those who do not possess the hardy manhood to follow the laborious and noble vocation, - cling to their mothers apron strings, and never know and realize the true, depth and constancy of a mother's love, Let them revel in the comforts of home and never know the pleasure of

Closing Remarks.

"eating their bread in the sweat of their brow." Before we leave the city for our homes we must visit again our floating home for four years. We meet some of our mates who seem to regret to bid her good by. But the niggers and stevedores have already begun their inroads upon the stately ship, and our regret wears away as she is fast becoming unrecognizable. We do not feel any regret or emotion in parting from our mates. We join the throng of day, hope to meet again, wish each other good luck with a hearty shake of the hand and we part from one who has shared in all our dangers and labors, friends never to meet more but we are on board the familiar old Mannahansett and already meeting old acquaintances and cut four years of patient toil is soon forgotten. We may visit the old ship a few days later when we gather around for our honest share of the voyage and we all feel interested in the noble Sunbeam but who among us would care to live the past four years over, and pass through the same scenes
